The following request has been submitted to the Office of Management and Budget for review under the Paperwork Reduction Act of 1995:

Proposed Project: The Impact of the State Child Health Insurance Program on Selected Community Health Centers and Maternal and Child Health Programs: New

This study proposes to determine the impact of SCHIP implementation on the insurance status of children served by two HRSA programs—Community Health Centers (CHCs) and health departments’ Maternal and Child Health

(MCH) programs—as well as the impact of SCHIP on these grantee organizations.

Transactional data will be reviewed in up to 21 HRSA grantee organizations from seven States and will extract encounter-level administrative data (encrypted individual code, date of birth, gender, dates of service, CPT–4 codes, and insurance status) at time of each service for 1997, 1998, and 1999.

Up to 20 former CHC or MCH patients (or their parents or guardians in the case of minors) will be surveyed in each site for whom retrospective data are available but who are no longer active users of the HRSA grantees by phone.

The estimated response burden is as follows:

TRANSACTIONAL DATA EXTRACTION					
Project form	Number of respondents	Responses per respondent	Total responses	Hours per response	Total hour burden
Survey	21	20	420	.33	139
