DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP17-476-000]

Gulf South Pipeline Company, LP; Notice of Availability of the Environmental Assessment for the Proposed Westlake Expansion Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Westlake Expansion Project, proposed by Gulf South Pipeline Company, LP (Gulf South) in the above-referenced docket. Gulf South requests authorization to construct and operate one new compressor station, two new meter and regulator (M&R) stations, and about 0.3 mile of 16-inch-diameter natural gas pipeline in Calcasieu Parish, Louisiana.

The EA assesses the potential environmental effects of the construction and operation of the Westlake Expansion Project in accordance with the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The proposed Westlake Expansion Project includes the following facilities:

- One new 10,000 horsepower compressor station (Westlake Compressor Station);
- 0.3 mile of 16-inch-diameter natural gas pipeline;
- one new delivery M&R station (Entergy Lake Charles M&R Station); and
- one new receipt M&R station (Varibus M&R Station).

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; Native American tribes; potentially affected landowners and other interested individuals and groups, including commenters; and newspapers and libraries in the project area. In addition, the EA is available for public viewing on the FERC's website (www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE, Room 2A, Washington, DC 20426, (202) 502-8371.

Any person wishing to comment on the EA may do so. Your comments
