#### SUPPLEMENTARY INFORMATION:

##### Regulatory Information

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM. Publishing an NPRM and delaying its effective date would be contrary to the public interest, since there is not sufficient time to publish a proposed rule in advance of the event and immediate action is needed to protect persons and vessels against the hazards associated with a fireworks display from a barge, such as premature detonation or falling burning debris.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. This safety zone of short duration is needed to provide for the safety of persons and vessels on the Potomac River and the public at large. Advance notification of the security zone and the fireworks display will be provided to the public via marine information broadcasts and by local media.

##### Background and Purpose

On April 2, 2005, the National Cherry Blossom Festival will sponsor a fireworks display from a barge on the Washington Channel, in Washington, DC, in approximate position latitude 38°52'08.5" N, longitude 077°01'13.0" W. The event will consist of an aerial fireworks display of short duration. A fleet of spectator vessels is anticipated.
