

#### IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 6, 2013.

**RIN 0648-XC252**

##### Endangered Species; File No. 17316

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Issuance of permit.

**SUMMARY:** Notice is hereby given that George Burgess, Ph.D., Florida Museum of Natural History, Dickinson Hall, University of Gainesville, Gainesville, FL 32611, has been issued a permit to take smalltooth sawfish (*Pristis pectinata*) for purposes of scientific research.

**ADDRESSES:** The permit and related documents are available for review upon written request or by appointment in the following offices:

Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376; and

Southeast Region, NMFS, 263 13th Ave. South, St. Petersburg, FL 33701; phone (727) 824-5312; fax (727) 824-5309.

**FOR FURTHER INFORMATION CONTACT:** Colette Cairns or Jennifer Skidmore, (301) 427-8401.

**SUPPLEMENTARY INFORMATION:** On September 24, 2012, notice was published in the **Federal Register** (77 FR 58812) that a request for a scientific research permit to take smalltooth sawfish had been submitted by the above-named individual. The requested permit has been issued under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The permit holder is authorized to gather life history information on smalltooth sawfish populations of Florida, primarily in Florida Bay and the upper Keys area. The purpose of the research is to investigate the movements and habitat use of smalltooth sawfish in Florida waters. Annually, up to 80 sawfish may be captured by gillnet, longline, or angling gear, measured, passive integrated transponder, roto, dart, and external satellite tagged, tissue, muscle, and blood sampled, and released. Dead sawfish acquired through strandings or from law enforcement confiscations may be sampled for scientific purposes. The permit is authorized for a duration of 5 years.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) Was applied for in good faith, (2) will not operate to the disadvantage of such endangered or threatened species, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: March 7, 2013.

##### Fisheries of the Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); Public Meetings

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of SEDAR 31 Gulf of Mexico Red Snapper Assessment Workshop Webinar #6.

**SUMMARY:** The SEDAR 31 assessment of the Gulf of Mexico Red Snapper fishery will consist of a series of workshops and supplemental webinars. This notice is for a webinar in the Assessment Workshop portion of the SEDAR process. See **SUPPLEMENTARY INFORMATION**.

**DATES:** The SEDAR 31 Assessment Workshop Webinar #6 will be held on April 4th, 2013. The workshop will begin at 1 p.m. and conclude no later than 5 p.m. EDT.

**ADDRESSES:**

*Meeting address:* The SEDAR 31 Assessment Workshop Webinar #6 will be held via GoToWebinar. The webinar is open to members of the public. Those interested in participating should contact Ryan Rindone at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request meeting information at least 24 hours in advance.

*SEDAR address:* 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

**FOR FURTHER INFORMATION CONTACT:** Ryan Rindone, SEDAR Coordinator; telephone: (813) 348-1630; email: [ryan.rindone@gulfcouncil.org](mailto:ryan.rindone@gulfcouncil.org).

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process including a workshop and webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Consensus Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment
