

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11013; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

#### **Approval and Promulgation of Implementation Plans; State of Missouri**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the state of Missouri. This approval pertains to revisions to a rule which controls emissions from the manufacture of paints, varnishes, lacquers, enamels, and other allied surface coating products in the St. Louis, Missouri, area. In the final rules section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

**DATES:** Comments on this proposed action must be received in writing by September 13, 2001.

**ADDRESSES:** Comments may be mailed to Wayne Kaiser, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.

**FOR FURTHER INFORMATION CONTACT:** Wayne Kaiser at (913) 551–7603.

**SUPPLEMENTARY INFORMATION:** See the information provided in the direct final rule which is located in the rules section of the **Federal Register**.

#### **National Oil and Hazardous Substance Pollution Contingency Plan National Priorities List**

**ACTION:** Notice of intent to delete the Tronic Plating Co., Inc. Superfund Site from the National Priorities List.

**SUMMARY:** The Environmental Protection Agency (EPA) Region II is issuing a notice of intent to delete the Tronic Plating Co., Inc. Superfund Site (Site) located in Farmingdale, New York, from the National Priorities List (NPL) and requests public comments on this notice of intent. The NPL, promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is found as Appendix B of 40 CFR Part 300 of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of New York, through the New York State Department of Environmental Conservation (NYSDEC), have determined that all appropriate response actions under CERCLA have been completed. However, this deletion does not preclude future options under Superfund.

In the "Rules and Regulations" Section of today's **Federal Register**, we are publishing a direct final notice of deletion of the Site without prior notice of intent to delete because we view this as a noncontroversial revision and anticipate no significant adverse comment. We have explained our reasons for this deletion in the preamble
