

## II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information, and transmission techniques.

## III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in the Walking-Working Surfaces Standard. The agency is requesting an adjustment increase in burden going from 498,640 to 649,612 hours, for a total increase of 150,972 hours. The adjustment increase is due to an increase in the number of establishments from 6,855,903 to 8,290,064 and the number of workers from 112 million to 135.7 million. Also, the agency is requesting an increase in annual capital cost for operation and maintenance of \$11,442,156 going from \$54,697,500 to \$66,139,656. The increase is due to an increase in the number of annual inspections and certifications going from 487,500 to 589,480.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.
