

While the LPTV station is secondary and can be displaced, we believe given the rural nature of Montana and neighboring states it is unlikely the LPTV station would be displaced, and if it was, Scripps would easily be able to find a displacement channel for it.

SUPPLEMENTARY INFORMATION:

Background

On February 28, 2022, at 87 FR 11156, DOT published in the **Federal Register** a notice of proposed rulemaking proposing to amend its transportation industry drug testing program procedures regulations, 49 CFR part 40, to include oral fluid testing. The proposal includes other provisions to update the Department’s regulation, and to harmonize, as needed, with the new Mandatory Guidelines for Federal Workplace Drug Testing Programs using Oral Fluid established by the U.S. Department of Health and Human Services. In addition to adding oral fluid as a drug testing method and harmonizing with pertinent OFMG sections, we also propose to clarify certain part 40 provisions that cover urine drug testing procedures; to remove provisions that no longer are necessary; to add clarifying language to other provisions such as updated definitions and web links, as appropriate; and to update provisions to reflect issues that have arisen in recent practice.

All members of the public, including DOT-regulated employers and employees, urine collectors, HHS–NLCP certified laboratories, Medical Review Officers, Substance Abuse Professionals, and Consortium/Third Party Administrations, Transportation trade organizations, and labor organizations are invited to submit comments.

The original comment period for the proposal would have closed March 30,

2022. However, DOT stakeholders have expressed concern that this closing date does not provide sufficient time to coordinate with their respective members to develop comments to the

NPRM and/or to submit comments to the docket. To allow time for interested parties to submit comments, the closing date is changed from March 30, 2022 to April 29, 2022.

Signed in Washington, DC, on March 16, 2022.

Patrice M. Kelly,

Office of Drug and Alcohol Policy and Compliance.
