Affected ADs

(b) None.

Applicability

(c) This AD applies to Boeing Model 737-600, -700, and -800 series airplanes, as listed in Boeing Special Attention Service Bulletin 737-54-1040, Revision 1, dated August 14, 2003; certificated in any category.

Unsafe Condition

(d) This AD was prompted by a report that an injection seal in the engine strut area may not have been properly completed or installed during production. Inspection and Corrective Action

(f) Within 18 months or 3,500 flight cycles after the effective date of this AD, whichever occurs first: Do a general visual inspection for sealant at the interface of the upper spar fittings, strut side skins, and the fittings of the thrust reverser strut fairing on the engine struts, in accordance with the Accomplishment Instructions of Boeing Special Attention Service Bulletin 737-54-1040, dated November 14, 2002; or Revision 1, dated August 14, 2003.

(1) If the injection seal is found to properly seal the entire gap, no further action is required by this AD.

(2) If the injection seal is not found to properly seal the entire gap or if the injection seal is found to be missing, before further flight, apply an injection seal or silicone sponge rubber with fillet seal in accordance with the Accomplishment Instructions of the service bulletin.

Alternative Methods of Compliance (AMOCs)

(g) The Manager, Seattle Aircraft Certification Office (ACO), FAA, has the authority to approve AMOCs for this AD, if requested in accordance with the procedures found in 14 CFR 39.19.

North Carolina: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: North Carolina has applied to EPA for Final authorization of the changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA proposes to grant final authorization to North Carolina. In the "Rules and Regulations" section of this **Federal Register**, EPA is authorizing the changes by an immediate final rule. EPA did not make a proposal prior to the immediate final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the reasons for this authorization in the preamble to the immediate final rule. Unless we get written comments which oppose this authorization during the comment period, the immediate final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we get comments that oppose this action, we will withdraw the immediate final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.
