

In accordance with section 751(a)(2)(B)(iii) of the Act and 19 CFR 351.214(e), we will instruct CBP to allow, at the option of the importer, the posting, until the completion of the review, of a single entry bond or security in lieu of a cash deposit for certain entries of the merchandise exported by Tosyali. We will apply the bonding option under 19 CFR 351.107(b)(1)(I) only to entries from Tosyali for which the respective producer under review is Tosçelik. Interested parties that need access to proprietary information in these new shipper reviews should submit applications for disclosure under administrative protective orders in accordance with 19 CFR 351.305 and 351.306. This initiation and notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.214(d).

Interested parties that need access to proprietary information in this new shipper review should submit applications for disclosure under administrative protective orders in accordance with 19 CFR 351.305 and 351.306.

This initiation and notice are in accordance with section 751(a) of the Act and 19 CFR 351.214(d).

Dated: June 30, 2005.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

International Trade Administration

North American Free-Trade Agreement, Article 1904; NAFTA Panel Reviews; Completion of Panel Review

AGENCY: NAFTA Secretariat, United States Section, International Trade Administration, Department of Commerce.

ACTION: Notice of Completion of Panel Review of the final remand determination made by the U.S. International Trade Commission, in the matter of Certain Corrosion-Resistant Carbon Steel Flat Products from Canada, Secretariat File No. USA-CDA-2000-1904-11.

SUMMARY: Pursuant to the Order of the Binational Panel dated May 20, 2005, affirming the final remand determination described above the panel review was completed on May 31, 2005.

FOR FURTHER INFORMATION CONTACT:

Caratina L. Alston, United States Secretary, NAFTA Secretariat, Suite 2061, 14th and Constitution Avenue, Washington, DC 20230, (202) 482-5438.

SUPPLEMENTARY INFORMATION: On May 20, 2005, the Binational Panel issued an order which affirmed the final remand determination of the United States International Trade Commission (ITC) concerning Certain Corrosion-Resistant Carbon Steel Flat Products from Canada. The Secretariat was instructed to issue a Notice of Completion of Panel Review on the 31st day following the issuance of the Notice of Final Panel Action, if no request for an Extraordinary Challenge was filed. No such request was filed. Therefore, on the basis of the Panel Order and Rule 80 of the *Article 1904 Panel Rules*, the Panel Review was completed and the panelists discharged from their duties effective May 20, 2005.

Dated: July 1, 2005.

Caratina L. Alston,

United States Secretary, NAFTA Secretariat.

National Oceanic and Atmospheric Administration

[I.D. 070505A]

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Northeast Region, NMFS (Assistant Regional Administrator) has made a preliminary determination that the subject Exempted Fishing Permit (EFP) application contains all the required information and warrants further consideration. The Assistant Regional Administrator has also made a preliminary determination that the activities authorized under the EFP would be consistent with the goals and objectives of the Northeast (NE) Multispecies Fishery Management Plan (FMP). However, further review and consultation may be necessary before a final determination is made to issue the EFP. Therefore, the Assistant Regional Administrator proposes to recommend that an EFP be issued to test gear

modification to reduce bycatch in the NE multispecies fishery that would allow three commercial fishing vessels to conduct fishing operations that are otherwise restricted by the regulations governing the fisheries of the Northeastern United States. The EFP would allow for exemptions from the FMP as follows: The Gulf of Maine (GOM) minimum mesh size requirements. Initially, the applicant requested an EFP to conduct research during May to July 15, 2005, and requested an exemption from the regulations pertaining to the GOM Rolling Closure Areas II and III at § 648.81(f)(1)(ii) and (iii), respectively. Due to an oversight, exemptions from GOM minimum mesh size requirements and from the GOM Rolling Closure Area IV (§ 648.81(f)(1)(iv)) were omitted from the May 16, 2005 **Federal Register** notice (70 FR 25814) announcing the EFP for the project. This revision proposes a GOM minimum mesh size exemption (the GOM Rolling Closure Area exemptions would no longer be necessary due to the timing of this action) and would extend the duration of the project to August 12, 2005.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Comments must be received on or before July 25, 2005.

ADDRESSES: Written comments should be sent to Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, 1 Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on the Manomet Rigid Mesh EFP Proposal Revision." Comments may also be sent via fax to (978) 281-9135, or be submitted via e-mail to the following address: da5-85r@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Karen Tasker, Fishery Management Specialist, phone (978) 281-9273.

SUPPLEMENTARY INFORMATION: Manomet Center for Conservation Sciences submitted an application for an EFP on March 16, 2005. The primary goal of the research is to test the effectiveness of inserting a rigid mesh panel between the extension and the codend of a trawl net to reduce regulatory discards while targeting yellowtail flounder, winter flounder, summer flounder, American plaice, and cod in inshore GOM waters.

The proposed rigid mesh panel would be 6.56 ft (2 m) in length and would be constructed of elongate meshes 2.36 inches (60 mm) wide and 7.87 inches (200 mm) long. This panel would be
