SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and government agencies with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is correct. The Occupational Safety and Health Act of 1970 (the Act) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents. (29 Ú.S.C. 657.)

Paragraph (g)(4) of the standard on Additional Requirements for Special Dipping and Coating Operations, 29 CFR 1910.126, requires employers to post a conspicuous sign near each piece of electrostatic-detearing equipment that notifies employees of the minimum safe distance they must maintain between goods undergoing electrostatic detearing and the electrodes or conductors of the equipment used in the process. Doing so reduces the likelihood of igniting the

explosive chemicals used in electrostatic-detearing operations.

II. Proposed Actions

OSHA proposes to retain its earlier estimate of zero burden hours for the information collection requirement specified by 29 CFR 1910.126(g)(4). Based on past discussions with organizations dealing with dip tanks, OSHA determined that employers affected by this provision previously collected the necessary information and provided the required signs for the 12 or fewer pieces of this equipment still in use. Therefore, assuming that the signs are permanent fixtures that will remain indefinitely with each piece of equipment, the Agency concludes that this paperwork requirement currently imposes no burden hours or cost on the employers who operate this equipment. OSHA will summarize the comments submitted in response to this notice, and will include this summary in the request to OMB to extend the approval of this information collection requirement.

Type of Review: Extension of currently approved information collection requirement.

Title: Additional Requirements for Special Dipping and Coating Operations. (29 CFR 1910.126).

OMB Number: 1218-0237.

Affected Public: Business or other forprofit; not-for-profit institutions; Federal government; state, local or tribal governments.

Number of Respondents: 0.

Frequency: Continuous.

Average Time per Response: 0. Estimated Total Burden Hours: 0.
