

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 52**

[MI83-02-7292; FRL-7581-9]

Approval and Promulgation of Air Quality Implementation Plans; Michigan; Withdrawal of Direct Final Rule**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Withdrawal of direct final rule.

SUMMARY: Due to the receipt of an adverse comment, the EPA is withdrawing the direct final rule approving a revision to Michigan's definition of volatile organic compound. The approval would have revised Michigan's State Implementation Plan (SIP) for ozone. In the direct final rule published on September 2, 2003 (68 FR 52104), EPA stated that if EPA receives adverse comment by October 2, 2003, the rule would be withdrawn and not take effect. On September 2, 2003, EPA subsequently received one comment. We believe this comment is adverse and, therefore, we are withdrawing the direct final rule. EPA will address the comment received in a subsequent final action based on the proposed action published on September 2, 2003.

DATES: The direct final rule published at 68 FR 52104 on September 2, 2003, is withdrawn as of October 31, 2003.

[Region 2 Docket No. PR11-267a; FRL-7581-4]

Approval and Promulgation of State Plans for Designated Facilities; Puerto Rico**AGENCY:** Environmental Protection Agency.**ACTION:** Direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking direct final action on the "State Plan" submitted by the Commonwealth of Puerto Rico to fulfill the requirements of sections 111(d)/129 of the Clean Air Act for Commercial and Industrial Solid Waste Incineration (CISWI) units. Puerto Rico's State Plan provides for the implementation and enforcement of the Emissions Guidelines, as promulgated by EPA on December 1, 2000, applicable to existing CISWI units for which construction commenced on or before November 30, 1999. Specifically, the State Plan that EPA is approving today, establishes emission limits for organics, carbon monoxide, metals, acid gases and particulate matter and compliance schedules for the existing CISWI units located in the Commonwealth of Puerto Rico which will reduce the designated pollutants.

DATES: This rule is effective on December 30, 2003, without further notice, unless EPA receives adverse comment by December 1, 2003. If EPA receives such comment, EPA will publish a timely withdrawal in the **Federal Register** informing the public that this rule will not take effect.

ADDRESSES: Comments may be submitted either by mail or electronically. Written comments should be mailed to Raymond Werner, Chief, Air Programs Branch, Environmental Protection Agency, Region 2 Office, 290 Broadway, 25th Floor, New York, New York 10007-1866. Electronic comments could be sent either to Werner.Raymond@epa.gov or to <http://www.regulations.gov>, which is an alternative method for submitting electronic comments to EPA. Go directly to <http://www.regulations.gov>, then select "Environmental Protection Agency" at the top of the page and use the "go" button. Please follow the on-line instructions for submitting comments.

SUPPLEMENTARY INFORMATION:**I. Background**

Sections 111(d) and 129 of the Clean Air Act (CAA) require states to submit plans to control certain pollutants (designated pollutants) at existing solid waste combustor facilities (designated facilities) whenever standards of performance have been established under section 111(b) for new sources of the same type, and EPA has established emission guidelines (EG) for such existing sources. A designated pollutant is any pollutant for which no air quality criteria have been issued, and which is not included on a list published under section 108(a) or section 112(b)(1)(A) of the CAA, but emissions of which are subject to a standard of performance for new stationary sources. However, section 129 of the CAA, also requires EPA to promulgate EG for Commercial and Industrial Solid Waste Incineration (CISWI) units that emit a mixture of air pollutants. These pollutants include organics (dioxins/furans), carbon monoxide, metals (cadmium, lead, mercury), acid gases (hydrogen chloride, sulfur dioxide, and nitrogen oxides) and particulate matter (including opacity). On December 1, 2000 (65 FR 75338), EPA promulgated CISWI unit new source performance standards and the EG, 40 CFR part 60, subparts CCCC and DDDD, respectively. The designated facility to which the EG apply is each existing CISWI unit, as defined in subpart DDDD, that commenced construction on or before November 30, 1999.

Section 111(d) of the CAA requires that "designated" pollutants, regulated
