Federal Register

Vol. 71, No. 241

Friday, December 15, 2006

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

December 11, 2006.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), oir_submission@omb.eop.gov or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Rural Business Service

Title: 7 CFR 1778, Emergency and Imminent Community Water Assistance Grants.

OMB Control Number: 0572-0110.

Summary Of Collection: The Rural Utilities Service (RUS) is authorized under Section 306A of the Consolidated Farm and Rural Development Act, (7 U.S.C. 1926(a) to provide grants to rural areas and small communities to secure adequate quantities of safe water. Grants made under this program shall be made for 100 percent of the project cost, can serve rural areas with population not in excess of 5,000, and household income should not exceed 100 percent of a State's non-metropolitan median household income. Grants under this program may be made to public bodies and private nonprofit corporations serving rural areas.

Need And Use Of The Information: RUS will collect the information from applicants applying for grants under 7 CFR 1778. The information is unique to each borrower and emergency situation. Applicants must demonstrate that there is an imminent emergency or that a decline occurred within 2 years of the date the application was filed with Rural Development.

Description Of Respondents: State, Local or Tribal Government; Not-for-profit institutions.

Number Of Respondents: 100.

Frequency Of Responses: Reporting: On occasion.

Total Burden Hours: 400.

Charlene Parker,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

December 11, 2006.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper

performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), oir_submission@omb.eop.gov or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Rural Housing Service

Title: 7 CFR 1956-C, Debt Settlement—Community and Business Programs.

OMB Control Number: 0575-0124.

Summary Of Collection: The Community and Direct Business Programs loans and grants are authorized by the Consolidated Farm and Rural Development Act. Rural Housing Service (RHS) is a credit agency for agricultural and rural development for the United States Department of Agriculture and offers supervised credit to develop, improve and operate family farms, modest housing, essential community facilities, and business and industry across rural America. 7 CFR 1956-C, Debt Settlement—Community and Business Programs provides policies and procedures as well as a mechanism for

debt settlement in connection with Community Facilities loans and grants, Water and Waste Disposal loans, direct Business and Industry loans, Indian Tribal Land Acquisition loans and Irrigation and Drainage. The debt settlement program provides the delinquent client with an equitable tool for the compromise, adjustment, cancellation, or charge-off of a debt owed to the Agency.

Need And Use Of The Information: The field offices will collect information from applicants, borrowers, consultants, lenders, and attorneys to determine eligibility, financial capacity and derive an equitable resolution. This information collected is similar to that required by a commercial lender in similar circumstances. Failure to collect the information could result in improper servicing of these loans.

Description Of Respondents: Not for profit institutions; Business or other for-profit.

Number Of Respondents: 16.

Frequency Of Responses: Reporting: On occasion.

Total Burden Hours: 702.

BILLING CODE 3410-XT-P

DEPARTMENT OF AGRICULTURE

Forest Service

Spruce Creek Project, Boise National Forest, Idaho

AGENCY: Forest Service, USDA.

ACTION: Notice of Intent To Prepare Environmental Impact Statement.

SUMMARY: The Cascade Ranger District of the Boise National Forest will prepare an environmental impact statement (EIS) for a resource management project in the Gold Fork River drainage. The entire project is located in the watersheds that drain into the Gold Fork River, which in turn drains into Cascade Reservoir. The 9,997 acre project area is located 10 miles northeast of Cascade, Idaho, and about 120 miles north of Boise, Idaho.

The agency invites written comments and suggestions on the scope of the analysis. The agency also hereby gives notice of the environmental analysis and decisionmaking process that will occur on the proposal so interested and affected people are aware of how they may participate and contribute to the final decision. At this time no public

meetings to discuss the project are planned.

Proposed Action: Eight objectives have been identified for the project: (1) Retain the existing size class of stands currently identified as large tree and manipulate the structure of small and medium tree size class stands to accelerate their movement towards the large tree size class, thereby retaining and potentially contributing to habitat for some terrestrial wildlife species associated with large tree size class; (2) Reduce the densities of stands currently identified as large tree size class in order to maintain or restore canopy closures within desired conditions, and to potentially contribute to habitat for those terrestrial wildlife species associated with large tree size class stands with low to moderate canopy closures; (3) Consistent with the particular habitat type, discriminate against shade tolerant species such as grand fir and subalpine fir and encourage retention and recruitment of seral species; (4) Relative to Douglas-fir beetle, mountain pine beetle, western pine beetle, western spruce budworm, and/or dwarf mistletoe, manipulate the structures, densities, and compositions of stands in order to maintain a low or moderate susceptibility level, or to decrease susceptibility to a low or moderate level; (5) Maintain or restore aspen and immature whitebark pine by eliminating competition with other conifer species; (6) Improve long term stand growth to or near levels indicative of sustainable forests; (7) Provide wood products to support local and regional economies; and; (8) Stabilize the cutslope failure on the #498 road.

The Proposed Action would implement silvicultural activities, including thinning of sub-merchantable trees, aspen enhancement, and whitebark pine enhancement, on 2,702 acres. An estimated 9.0 MMbf would be removed using tractor, off-road jammer, skyline, and helicopter yarding systems. The Proposed Action would employ a variety of silvicultural prescriptions including clearcut with reserve trees, commercial thin, improvement cut, irregular shelterwood, individual tree selection, sanitation, thinning of sub-merchantable trees, aspen enhancement, and whitebark pine enhancement.

Road maintenance activities would occur on an estimated 0.4 miles of existing road under this alternative. Specifically, one under-sized culvert along the #402 road would be replaced with a culvert sufficient in size to accommodate a 100-year flow event; a series of drive-through dips would be installed on the #402F1 road to prevent erosion; a culvert would be installed on

the #402F road to facilitate silvicultural activities, and; an existing slump on the cutslope along the #498 road would be stabilized.

Roughly 1.1 miles of temporary road would be constructed to facilitate harvest activities and six helicopter landings constructed. Post-implementation management of the existing transportation system within the project area would not change under this alternative. All existing road restrictions would be reinstated upon completion of harvest activities.

Preliminary Issues: Preliminary concerns with the Proposed Action include potential impacts on water quality and terrestrial wildlife species.

Possible Alternatives to the Proposed Action: One alternative to the Proposed Action that has been discussed thus far is a no action alternative. Other alternatives will likely be developed as issues are identified and information received.

Decisions to be Made: The Boise National Forest Supervisor will decide the following: (1) Should vegetation be managed within the project area at this time, and if so, which stands should be treated and what silvicultural systems applied? (2) Should temporary roads be built at this time, and if so, how many miles should be built and where should they occur within the project area? (3) Should aspen and immature whitebark pine be enhanced by eliminating competing conifer species, and if so, where within the project area? (4) Should identified road maintenance activities occur on portions of roads #402, #402F1, #402F, and #498 at this time? (5) What design features, mitigation measures, and/or monitoring should be applied to the project?

DATES: Comments concerning the proposed project and analysis are encouraged and should be postmarked or received within 30 days following publication of this announcement in the **Federal Register**.

ADDRESSES: Comments should be addressed to the Cascade Ranger District, ATTN: Keith Dimmett, P.O. Box 696, Cascade, ID 83611 or sent electronically to comments-intermtn-boise-casade@fs.fed.us. Electronic comments must be submitted in plain text or another format compatible with Microsoft Word. Comments may also be delivered to the above address during regular business hours of 8 a.m. to 4:30 p.m. Monday–Friday. Comments can also be submitted by phone at 208–382–7400 or FAX to 208–382–7480. Comments received in response to this request will be available for public inspection and will be released in their
