the public. The purpose of the public  
pilot project is to assess the additional  
costs of making this service formally

available to the general public, identify more fully our customer base, and to evaluate benefits. The user registration form is required to accurately track usage and costs by user sector and geographic location. The form would appear on the USITC EOL Internet site (<http://dockets.usitc.gov>) and would need to be filled out only once. The commission expects to complete the pilot project by March 31, 2003.

## INTERNATIONAL TRADE COMMISSION

[Investigation 332-416]

### The Economic Effects on the United States of the EU-South Africa Agreement on Trade, Development, and Cooperation

**AGENCY:** United States International Trade Commission.

**ACTION:** Institution of investigation and scheduling of public hearing.

**SUMMARY:** Following receipt of a request on April 12, 2000 from the United States Trade Representative (USTR), the Commission instituted investigation No. 332-416, The Economic Effects on the United States of the EU-South Africa Agreement on Trade, Development, and Cooperation, a report to the President under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)).

**EFFECTIVE DATE:** May 17, 2000.

#### FOR FURTHER INFORMATION CONTACT:

Information may be obtained from Walker Pollard (202-205-3228) or Constance Hamilton (202-205-3263), Office of Economics, U.S. International Trade Commission, Washington, DC 20436. For information on the legal aspects of this investigation, contact William Gearhart of the Office of the General Counsel (202-205-3091). Hearing impaired individuals are advised that information on this matter can be obtained by contacting the TDD terminal on (202) 205-1810.

#### Background

USTR requested that the Commission's report include the following:

- An analysis of the likely impact of the EU-South Africa agreement (EU-SA agreement) on U.S. trade and investment with South Africa.
- An analysis of the potential trade diversionary effects of the EU-SA agreement and other relevant factors affecting U.S. trade with South Africa.
- The percentage of trade in goods covered by the EU-SA agreement and a profile of South Africa's trade and investment patterns.
- A summary of the EU-SA agreement's trade-related provisions including a descriptive summary of the staging provisions of the agreement and a list of all product categories on which

tariffs will not drop to zero by the end of the 12-year implementation period.

- A summary of relevant U.S. business views of the EU-SA agreement.

As requested by the USTR, because the agreement will be implemented in stages, the Commission's economic analysis will look at the impact of the provisions that would be in effect in the first year of the agreement, mid-implementation and full implementation. In addition, because the agreement has implications for the Southern African Customs Union (SACU) and the Southern African Development Community (SADC), the Commission's analysis will, as requested, include information on the effects on U.S. trade with the other SACU and SADC members and a discussion of the impact of the agreement on the members of the SACU and SADC in general. The report will contain a review and bibliography of existing academic and other literature relating to this topic.

In addition to descriptive materials related to the agreement and its broad range of potential effects, the Commission will, as requested, conduct a formal quantitative economic analysis based on actual trade and related to economic variables from a recent representative, historical period. This analysis will report on export and import levels and at a sectoral level, to the extent possible, on changes in U.S. trade and investment with South Africa.

The report will include a description of any models or data sets used in the quantitative assessments of the issues. These descriptions will include a discussion of the structure and function of the model and the type and breadth of data. The study will discuss the nature of the limitations and biases in any formal modeling conducted and how such factors may affect reported results, based on economic theory, reviews of any relevant economic literature, and more general descriptive analysis.

The Commission plans to submit its report, The Economic Effects on the United States of the EU-South Africa Agreement on Trade, Development, and Cooperation, by April 12, 2001. The USTR indicated that the report will be classified as confidential.

#### Public Hearing

A public hearing in connection with the investigation will be held at the U.S. International Trade Commission Building, 500 E Street SW, Washington, DC, beginning at 9:30 a.m. on September 7, 2000. All persons shall have the right to appear, by counsel or in person, to present information and to be heard.
