

programs developed by OPACE's inform the public on how to safely handle, prepare, and store meat, poultry, and processed egg products to minimize incidence or foodborne illness. FSIS will contact web-based surveys of consumers.

*Need and Use of the Information:* Finding from the web surveys will provide information on how FSIS communication programs and materials affect consumer understanding of recommended safe food handling practices and insight into how to effectively inform consumers of recommended practices. The results of this exploratory research will be used to enhance communication programs and materials to improve consumers' food safety behaviors and help prevent foodborne illness.

*Description of Respondents:* Individuals or households.

*Number of Respondents:* 9,092.

*Frequency of Responses:* Reporting: One time.

*Total Burden Hours:* 1,956.

## DEPARTMENT OF AGRICULTURE

### Forest Service

#### Information Collection; Federal Excess Personal Property and Firefighter Property Program Administration

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice; request for comment.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, the Forest Service is seeking comments from all interested individuals and organizations on the revised information collection, Federal Excess Personal Property (FEPP) and Firefighter Property (FFP) Program Administration.

**DATES:** Comments must be received in writing on or before November 24, 2020 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

**ADDRESSES:** Comments concerning this notice should be addressed to: USDA, Forest Service, Attention Clint Cross, USDA Forest Service, Washington Office Fire and Aviation Management (FAM), 1400 Independence Avenue Southwest, Mailstop 1107, Washington, DC 20250. Comments may also be submitted via email to: [clint.cross@usda.gov](mailto:clint.cross@usda.gov).

The public may inspect comments received at USDA Forest Service, Washington Office during normal business hours. Visitors are encouraged to call ahead to 202-205-0995 to facilitate entry to the building.

**FOR FURTHER INFORMATION CONTACT:**

Clint Cross, Fire and Aviation Management by phone at 202-205-0995.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Standard Time, Monday through Friday.

**SUPPLEMENTARY INFORMATION:**

*Title:* Federal Excess Personal Property (FEPP) and Firefighter Property (FFP) Program Administration.

*OMB Number:* 0596-0223.

*Type of Request:* Extension without Revision.

*Abstract:* Federal Excess Personal Property (FEPP) and Firefighter Property (FFP) Program Cooperative Agreements are available to State forestry agencies. The program administration provides participating State agencies with surplus Department of Defense and other Federal agencies equipment and supplies to be used in firefighting and emergency services. The FEPP program loans property to the State who in turn sub-loans the equipment and supplies to fire departments. The FFP program transfers ownership of many types of property to either the State agency or the individual fire department.

A cooperative agreement collects information from the participating State agencies and outlines the requirements and rules for the cooperation. Each State forestry agency shall provide an Accountable Officer who will be responsible for the integrity of the program within their respective State. For this reason, FEPP and FFP collects the state forestry agency contact information, the information of the Accountable Officer, and the requirements of participation in the FEPP and FFP programs.

A cooperative agreement is prepared by each State forestry agency that desires to participate in one, or both programs. Participating State agencies must submit separate agreements if they desire to be participants in both programs. Agreements will be processed and maintained at the United States Department of Agriculture, Forest Service, Fire and Aviation Management, Landscapes and Partnerships Assistant Director area and in each Forest Service Regional Office.

Since the FEPP property belongs to the Forest Service, the agency inventory

system facilitates reporting by state agencies to the Forest Service on the status and location of the property. State agencies use the electronic database (Federal Excess Property Management Information System or FEPMIS) to submit information regarding the property make, model, serial number, acquisition value, location, and acquisition date when an item is acquired or no longer needed. Forest Service property management technicians will collect the information from FEPMIS and enter it into the National Finance Center database (CPAIS-PP), as required by Federal Property Management Regulations. Forest Service property management officers will analyze the data collected to ensure that the property accountability is accurate, and no misuse of property is occurring.

The authority to loan surplus supplies to state agencies comes from the Federal Property and Administration Services Act of 1949, 40 U.S.C. and grants the authority for the FEPP program. Authority to donate excess supplies comes from 10 U.S.C., Subtitle A, Part IV, Chapter 153, 2576b which grants the authority for the FFP program.

*Estimate of Annual Burden:* 1 hour and 2 minutes.

*Type of Respondents:* State Foresters and State Agency FEPP property managers.

*Estimated Annual Number of Respondents:* 65.

*Estimated Annual Number of Responses per Respondent:* 302.

*Estimated Total Annual Burden on Respondents:* 570 hours.

*Comment is Invited:*

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the

submission request toward Office of Management and Budget approval.

**Jaelith Hall-Rivera,**

*Associate Deputy Chief, State & Private Forestry.*

## DEPARTMENT OF COMMERCE

### Census Bureau

#### **Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Longitudinal Employer-Household Dynamics (LEHD)**

**AGENCY:** Census Bureau, Commerce.

**ACTION:** Notice of information collection, request for comment.

**SUMMARY:** The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment on the proposed extension of the Longitudinal Employer-Household Dynamics data collection, prior to the submission of the information collection request (ICR) to OMB for approval.

**DATES:** To ensure consideration, comments regarding this proposed information collection must be received on or before November 24, 2020.

**ADDRESSES:** Interested persons are invited to submit written comments by mail to [PRAComments@doc.gov](mailto:PRAComments@doc.gov). Please reference OMB Control Number 0607–1001 in the subject line of your comments. You may also submit comments, identified by Docket Number USBC–2020–0006, to the Federal e-Rulemaking Portal: <http://www.regulations.gov>. All comments received are part of the public record. No comments will be posted to <http://www.regulations.gov> for public viewing until after the comment period has closed. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information. You may submit attachments to electronic comments in

Microsoft Word, Excel, or Adobe PDF file formats.

#### **FOR FURTHER INFORMATION CONTACT:**

Requests for additional information or specific questions related to collection activities should be directed to Keith Bailey, Assistant Center Chief, (301) 763–2923, [keith.a.bailey@census.gov](mailto:keith.a.bailey@census.gov).

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Abstract**

A 21st century statistical system must provide information about the dynamic economy quickly, using data assets efficiently while minimizing the burden of collecting and providing data and fully preserving confidentiality. The Census Bureau's Longitudinal Employer-Household Dynamics (LEHD) data infrastructure has demonstrated the power and usefulness of linking multiple business and employee data sets with state-of-the-art confidentiality protections to build a longitudinal national frame of jobs.

LEHD supports the Department of Commerce plan to improve American competitiveness and measures of innovation. It provides federal, state, and local policymakers and planners, businesses, private sector decision makers, and Congress with comprehensive and timely national, state, and local information on the dynamic nature of employers and employees.

LEHD significantly reduces the overall effort for the generation of its quarterly data product by:

- Leveraging existing federal administrative and state data.
- Avoiding costs required to expand existing surveys to collect the information directly.
- Reducing respondent burden by limiting the number of required resources to just the owners of the required data.

LEHD is a result of the Local Employment Dynamics (LED) Partnership. The LED Partnership is a partnership between the US Census Bureau and the Labor Market Information (LMI) agencies from 50 states, the District of Columbia, and the territories of Puerto Rico, Guam and the U.S. Virgin Islands. This partnership supports the development, promotion, and distribution of the following public-use data products:

- Quarterly Workforce Indicators (QWI)—LEHD's flagship data product is the Quarterly Workforce Indicators (QWI) which provides 32 statistical indicators on employment, job creation and destruction, accessions (hires and recalls), and separations (e.g., exits and layoffs). These statistics are released for

the following by-groups for all quarters for which data are available for each partner state:

- County, metropolitan, and workforce development area.
- Age, sex, race, and ethnicity categories.
- Business characteristics (i.e., detailed industry ownership type, firm age, firm size).

- LEHD Origin Destination Employment Statistics (LODES)—LODES data provide detailed spatial distributions of workers' employment and residential locations and the relation between the two at the Census Block level. LODES also provides characteristic detail on age, earnings, industry distributions, and other worker/business characteristics.

- Job-to-Job Flows (J2J)—Job-to-Job Flows (J2J) is a set of statistics on job mobility in the United States constructed by the LEHD program. J2J include statistics on: (1) The job-to-job transition rate, (2) hires and separations to and from employment, (3) earnings changes due to job change, and (4) characteristics of origin and destination jobs for job-to-job transitions. These statistics are available at the national, state, and metropolitan area levels and by worker and firm characteristics.

- Post-Secondary Employment Outcomes (PSEO)—Post-Secondary Employment Outcomes (PSEO) is an experimental set of statistics on the earnings and employment outcomes of graduates of select post-secondary institutions in the United States, and is constructed using data from LEHD. Earnings Outcomes reports earnings by institution, degree field, degree level and graduation cohort for 1, 5 and 10 years after graduation. Employment Flows tabulations provide the destination industry and geography of employment for graduates of an institution by degree level, degree field, and graduation cohort, for one, five, and 10 years after graduation. A limited number of institutions are available as part of the pilot release, but future updates will include additional post-secondary institutions.

These data products highlight state and local labor market dynamics that cannot be learned from other statistical sources and are therefore used in many different arenas. For example, the QWI can be used as local-labor-market controls in regression analysis; to identify long-term trends; to provide local context in performance evaluations; and for a host of other applications.
