

mechanism, the FIFRA SAP provides comments, evaluations and recommendations to improve the effectiveness and quality of analyses made by Agency scientists. Members of the FIFRA SAP are scientists who have sufficient professional qualifications, including training and experience, to provide expert advice and recommendation to the Agency.

B. Public Meeting

The FIFRA SAP will meet to consider and review guidance on test methods for demonstrating the efficacy of antimicrobial products for inactivating *Bacillus anthracis* (*B. anthracis*) spores on environmental surfaces. EPA regulations require that product performance (efficacy) studies be submitted to support registration of an antimicrobial product for which public health claims, such as "disinfect" or "sterilize" (40 CFR 158.640), are made. In addition, any claim of inactivation of a specific microorganism should be supported by valid data that demonstrate the efficacy of the product against that particular microorganism. At this SAP meeting, the EPA will present draft guidance concerning efficacy testing to support a claim that an antimicrobial product inactivates *B. anthracis* spores on inanimate environmental surfaces. EPA is seeking the assistance of the FIFRA SAP to review and comment on the scientific basis for efficacy data requirements to support registration of products that make such claims. Specific topics the FIFRA SAP will be asked to consider include available qualitative and quantitative sporidical efficacy test methods, the use of various coupon materials to conduct tests, use of test surrogates for *B. anthracis*, and the adequacy of performance standards for quantitative sporidical testing. Further, EPA is seeking assistance of the SAP to review and comment on the scientific basis for using a "simulated use test" for gases and vapors to support registration of sterilants and sporicides.

C. FIFRA SAP Documents and Meeting Minutes

EPA's background paper, related supporting materials, charge/questions to the FIFRA SAP, FIFRA SAP composition (i.e., members and ad hoc members for this meeting), and the meeting agenda will be available by mid-June. In addition, the Agency may provide additional background documents as the materials become available. You may obtain electronic copies of these documents, and certain other related documents that might be available electronically, at <http://www.regulations.gov> and the FIFRA SAP homepage at <http://www.epa.gov/scipoly/sap>.

The FIFRA SAP will prepare meeting minutes summarizing its recommendations to the Agency approximately 90 days after the meeting. The meeting minutes will be posted on the FIFRA SAP web site or may be obtained from the OPP Regulatory Public Docket at <http://www.regulations.gov>.
