

As under Alternative A, we would continue to comply with Section 106 of the National Historic Preservation Act, but there would be no additional active cultural resources management. Cooperation with the Muscogee Creek Nation in management and protection of Traditional Cultural Properties would continue. Additionally, within 10 years of CCP approval, a Phase I cultural resources survey of the refuge would be implemented, and within 15 years of CCP approval, the refuge would develop and begin to implement an Integrated Cultural Resources Management Plan.

A law enforcement officer would be added for Bond Swamp NWR, working 2,080 hours per year in boundary work, public safety, and cultural resources identification and protection. This would be in addition to the same tasks as identified under Alternative A—patrols, trespass and cultural resources enforcement, and hunting/fishing compliance checks.

For the duration of the CCP, we would cooperate with State and local government agencies and non-governmental organizations to characterize status of refuge waters and fish species with regard to environmental contamination issues, such as presence and levels of toxins. Fish consumption advisories would be posted as appropriate. With regard to hydrologic function, as under Alternative A, input to the Service's Ecological Services Office in Athens, Georgia, on Section 404 permit applications would continue to be provided. Additionally, communication with the Ecological Services Office would be improved to provide more effective input and to safeguard the refuge's interests. Partnerships and funding would be pursued to obtain a North American Wetland Conservation Act grant through the ACJV to increase land acquisition within the refuge boundary.

Within 3 years of CCP approval, a Visitor Services Plan would be prepared and implemented to provide overall management guidance for public use on the refuge. We would work with State and county partners to improve directional signage, kiosks, and parking lots. Within the 15-year life of the CCP, access on the east side would be improved by working with the Georgia Department of Transportation and the Federal Highway Administration to install turning lanes at entrances, improve Stone Creek Road, and provide boat and canoe/kayak access to Stone Creek. Vehicular access on the west side of the refuge would be opened by locating a right-of-way. We also would work with the Georgia Department of

Natural Resources to locate a boat ramp along the Ocmulgee River.

The priority public recreational uses of the National Wildlife Refuge System would continue at Bond Swamp NWR under Alternative C. Within 5 years of settlement of a lawsuit against the Service, which is now being litigated, we would maintain or expand existing hunts and add small game, wild turkey, and waterfowl hunts. The west side of the refuge would be opened to hunting, once access is provided.

Within 3–5 years of CCP approval, fishing opportunities would be improved through increased access on the east and west sides of the refuge. At primary parking and boat launch areas, health advisories related to consuming fish would be posted. We would work with the Georgia Department of Natural Resources to consider methods for controlling flathead catfish.

Within 10 years of CCP approval, a canoe trail on Stone Creek would be developed, the viewshed at the Brown's Mount overlook would be improved, and a boardwalk along Stone Creek would be developed.

In cooperation with partners, an educational program would be developed and implemented that would provide an understanding and appreciation of the refuge's ecology and historic and present human influence on the region's ecosystems. A full-time park ranger would be added to manage the program. We would identify potential outreach events and decide which could provide the greatest return on investment, limiting participation to those events only. As time allows, programs would be presented to local groups (e.g., civic, library, garden clubs, and schools).

The refuge operations specialist and park ranger would be reinstated; a law enforcement officer, a forestry technician, and an engineering equipment operator would be added. In addition to partnerships with the Georgia Department of Natural Resources, the Georgia Forestry Commission, and the Muscogee Creek Nation, as under Alternative A, we would actively participate with local partnerships in resource conservation and land planning, such as Ocmulgee Heritage Greenway, and cooperate with non-governmental organizations and other organizations. Within 15 years of CCP approval, we would plan and construct an office and maintenance yard east of State Route 23. Equipment, such as a tractor, backhoe, 5 trucks, a johnboat with motor, 1 four-wheeler, and trailer, would be acquired.

Next Step

After the comment period ends, we will analyze the comments and address them.

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority

This notice is published under the authority of the National Wildlife Refuge System Improvement Act of 1997, Public Law 105–57.

Dated: May 17, 2009.

Cynthia K. Dohner,

Acting Regional Director.

Notice of Public Meeting, North Slope Science Initiative, Science Technical Advisory Panel, Alaska

AGENCY: Bureau of Land Management, North Slope Science Initiative, Interior.

ACTION: Notice of public meeting.

SUMMARY: In accordance with the Federal Land Policy and Management Act (FLPMA) and the Federal Advisory Committee Act of 1972 (FACA), the U.S. Department of the Interior, North Slope Science Initiative (NSSI) Science Technical Advisory Panel (STAP) will meet as indicated below:

DATES: The meeting will be held July 9 and 10, 2009, in Prudhoe Bay, Alaska. On July 9, 2009, the meeting will begin at 1 p.m. in the Arctic Caribou Inn, Ltd. Public comments will begin at 4 p.m. On July 10, 2009, the meeting will begin at 8:30 a.m. at the same location, and will adjourn at 11:45 a.m.

FOR FURTHER INFORMATION CONTACT: John F. Payne, Executive Director, North Slope Science Initiative; c/o Bureau of Land Management, AK–910; 222 W. Seventh Avenue, #13; Anchorage, AK 99513; phone 907–271–3431 or e-mail john_f_payne@blm.gov.

SUPPLEMENTARY INFORMATION: The NSSI STAP provides advice and recommendations to the NSSI Oversight Group regarding priority needs for management decisions across the North Slope of Alaska. These priority needs may include recommendations on inventory, monitoring, and research activities that lead to informed land management decisions. The topics to be discussed at the meeting include:

- Emerging issues summary from the STAP;
- Update on the project tracking system;
- Update on the project database;
- NSSI priority issues and projects;
- Other topics the Oversight Group or STAP may raise.

All meetings are open to the public. The public may present written comments to the Science Technical Advisory Panel through the Executive Director, North Slope Science Initiative. Each formal meeting will also have time allotted for hearing public comments. Depending on the number of persons wishing to comment and time available, the time for individual oral comments may be limited. Individuals who plan to attend and need special assistance, such as sign language interpretation, transportation, or other reasonable accommodations, should contact the Executive Director, North Slope Science Initiative.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: June 15, 2009.

Thomas P. Lonnie,

Alaska State Director.
