SUPPLEMENTARY INFORMATION:**I. Background**

This interim rule amends FAR part 25 and the corresponding provisions and clauses in part 52 to implement the United States-Korea Free Trade Agreement (see the United States-Korea Free Trade Agreement Implementation Act (Pub. L. 112–41) (19 U.S.C. 3805 note)).

The Republic of Korea is already party to the World Trade Organization Government Procurement Agreement (WTO GPA). This Free Trade Agreement (FTA) now covers acquisition of supplies and services between \$100,000 and the current WTO GPA threshold of \$202,000, lowering the threshold for—

- Waiver of the applicability of the Buy American statute (41 U.S.C. chapter 83) for some foreign supplies and construction materials from the Republic of Korea; and
- Applicability of specified procurement procedures designed to ensure fairness in the acquisition of supplies and services (see FAR 25.408). These obligations include, among others, that an agency shall not impose the condition that, in order for an offeror to be allowed to submit an offer or be awarded a contract, the offeror has been previously awarded one or more contracts by an agency of the United States Government or that the offeror has prior work experience in the United States (see FAR 15.305(a)(2)(iv)).

II. Discussion and Analysis

This interim rule adds the Republic of Korea to the definition of “Free Trade Agreement country” in multiple locations in the FAR. The Republic of Korea was already listed as a designated country because it is party to the WTO GPA. The excluded services for Korea FTA are the same as for the WTO GPA.

By implementation of this Korea FTA, eligible goods and services from Korea are now covered when valued at or above \$100,000, rather than at or above the WTO GPA threshold of \$202,000. The threshold for the Korea FTA for construction is the same as the threshold for the WTO GPA for construction.

The Korea FTA \$100,000 threshold for supplies and services is higher than the threshold for supplies and services for most of the FTAs (\$77,494), but not as high as the Bahrain, Morocco, Oman, and Peru FTA threshold for supplies and services (\$202,000). Therefore, new alternates are required for the Buy American Act—Free Trade Agreements—Israeli Trade Act provision and clause (FAR 52.225–3 and 52.225–4) to cover acquisitions that are valued at \$77,494 or more but less than \$100,000. In that dollar range, all FTAs are applicable except for the Bahrain, Korea, Morocco, Oman, and Peru FTAs.

Because the Korea FTA construction threshold of \$7,777,000 is the same as the WTO GPA threshold, no new clause alternates are required for the Buy American Act—Construction Materials under Trade Agreements provision and clause (FAR 52.225–11 and 52.225–12)

or the Recovery Act clauses at FAR 52.225–23 and 52.225–24.

Some minor editorial type corrections are also included in this rule to—

- Include the public law number and 19 U.S.C. reference for all Free Trade Agreements;
- Correct references to 41 U.S.C. chapter 83 and 41 U.S.C. 1907 (based on the recent positive law codification of title 41);
- Delete an unnecessary definition of “Canadian end product” in FAR 25.003 (term is only used in the provisions and clauses, and is defined at FAR 52.225–3 Buy American Act—Free Trade Agreements—Israeli Trade Act); and
- Provide consistency in paragraph (c) of FAR 52.225–3 between basic clause and alternates, except to the extent that a change is required due to the applicability of trade agreements. This consists of adding to Alternates I and II the statement that the Buy American Act provides a preference for domestic goods, and that the component test of the Buy American Act has been waived for end products that are commercially available off-the-shelf items, in accordance with 41 U.S.C. 1907.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is a significant regulatory action and, therefore, was subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

DoD, GSA, and NASA do not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* Korea is already a designated country under the WTO GPA. Although the rule now opens up Government procurement to the goods and services of Korea at or above the threshold of \$100,000, DoD, GSA, and NASA do not anticipate any significant economic impact on U.S. small businesses. The Department of Defense only applies the

trade agreements to the non-defense items listed at Defense Federal Acquisition Regulation Supplement 225.401–70, and acquisitions that are set aside or provide other form of preference for small businesses are exempt. FAR 19.502–2 states that acquisitions of supplies or services with an anticipated dollar value between \$3,000 and \$150,000 (with some exceptions) are automatically reserved for small business concerns. Therefore, DoD, GSA, and NASA have not performed an Initial Regulatory Flexibility Analysis.

DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by the rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (FAR Case 2012–004), in correspondence.

V. Paperwork Reduction Act

This rule affects the certification and information collection requirements in the provisions at FAR 52.212–3, 52.225–4, 52.225–6, and 52.225–11 currently approved under OMB clearances 9000–0136, 9000–0130, 9000–0025, and 9000–0141 respectively, in accordance with the Paperwork Reduction Act (44 U.S.C. chapter 35). The impact, however, is negligible, because it is just a question of which category offered goods from the Republic of Korea would be listed under.

VI. Determination To Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense (DoD), the Administrator of General Services (GSA), and the Administrator of the National Aeronautics and Space Administration (NASA) that urgent and compelling reasons exist to promulgate this interim rule without prior opportunity for public comment. This action is necessary because the Free Trade Agreement with the Republic of Korea takes effect on March 15, 2012. This is a reciprocal agreement, approved by Congress and the President of the United States. It is important for the United States Government to honor its new trade obligations to the Republic of Korea, as the Republic of Korea in turn honors its new trade obligations to the United States. However, pursuant to 41 U.S.C. 1707 and FAR 1.501–3(b), DoD, GSA, and NASA will consider public

comments received in response to this interim rule in the formation of the final rule.

Alternate III (MAR 2012). As prescribed in 25.1101(b)(1)(iv), delete the definition of “Bahrainian, Moroccan, Omani, or Peruvian end product” and add in its place the following definition of “Bahrainian, Korean, Moroccan, Omani, or Peruvian end product” in paragraph (a) of the basic clause; and substitute the following paragraph (c) for paragraph (c) of the basic clause:

Bahrainian, Korean, Moroccan, Omani, or Peruvian end product means an article that—

(1) Is wholly the growth, product, or manufacture of Bahrain, Korea (Republic of), Morocco, Oman, or Peru; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Bahrain, Korea (Republic of), Morocco, Oman, or Peru into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to the article, provided that the value of those incidental services does not exceed that of the article itself.

(c) *Delivery of end products.* 41 U.S.C. chapter 83 provides a preference for domestic end products for supplies acquired for use in the United States. In accordance with 41 U.S.C. 1907, the component test of the Buy American Act is waived for an end product that is a COTS item (See 12.505(a)(1)). In addition, the Contracting Officer has determined that FTAs (except the Bahrain, Korea (Republic of), Morocco, Oman, and Peru FTAs) and the Israeli Trade Act apply to this acquisition. Unless otherwise specified, these trade agreements apply to all items in the Schedule. The Contractor shall deliver under this contract only domestic end products except to the extent that, in its offer, it specified delivery of foreign end products in the provision entitled “Buy American Act—Free Trade Agreements—Israeli Trade Act Certificate.” If the Contractor specified in its offer that the Contractor would supply a Free Trade Agreement country end product (other than a Bahrainian, Korean, Moroccan, Omani, or Peruvian end product) or an Israeli end product, then the Contractor shall supply a Free

Trade Agreement country end product (other than a Bahrainian, Korean, Moroccan, Omani, or Peruvian end product), an Israeli end product or, at the Contractor's option, a domestic end product.
