

OMB Control Number: 1219-0078.
Form Number: MSHA 5000-3.
Estimated Number of Respondents: 224.

Estimated Total Annual Burden Hours: 8,825.

Estimated Total Annual Cost Burden (does not include hourly wage costs): \$243,049.

Affected Public: Business or other for profits (metal and nonmetal mines).

Description: The Department's regulations at 30 CFR part 49 set standards relating to the availability of mine rescue teams; alternate mine rescue capability for small and remote mines and mines with special mining conditions; inspection and maintenance records of mine rescue equipment and apparatus; physical requirements for mine rescue team members and alternates; and experience and training requirements for team members and alternates. The information collection requirements contained in 30 CFR part 49 are used by mine operators, miners, and MSHA to formulate an appropriate rescue capability within the guidelines set forth in these standards. For additional information, see related notice published in the **Federal Register** on October 15, 2009, at Vol. 74, page 52979.

Agency: Mine Safety and Health Administration.

Type of Review: Extension without change of currently approved collection.

Title of Collection: Daily Inspection of Surface Coal Mines; Certified Person; Reports of Inspection.

OMB Control Number: 1219-0083.
Form Number: N/A.

Estimated Number of Respondents: 1,442.

Estimated Total Annual Burden Hours: 674,856.

Estimated Total Annual Cost Burden (does not include hourly wage costs): \$0.

Affected Public: Business or other for profits (surface coal mines).

Description: 30 CFR 77.1713 requires operators of surface coal mines and surface facilities to keep records of the results of required examinations for hazardous conditions. These records consist of the nature and location of any hazardous condition found and the actions taken to abate the hazardous condition. The records are used by the MSHA inspectors to determine compliance with the standard, and that any hazards found have either been corrected or barricaded. Mine operators use these records to identify areas of the mine or equipment that present hazards to miners and, therefore, must be corrected to prevent miner injuries or death. Repeated hazardous conditions

in any area or involving a particular piece of equipment would indicate to the operator the need for modification of operating procedures or replacement or repair of equipment. For additional information, see related notice published in the **Federal Register** on October 9, 2009, at Vol. 74, page 52260.

Agency: Mine Safety and Health Administration.

Type of Review: Extension without change of currently approved collection.

Title of Collection: Explosive Materials and Blasting Units.

OMB Control Number: 1219-0095.

Form Number: N/A.

Estimated Number of Respondents: 1.
Estimated Total Annual Burden

Hours: 1.

Estimated Total Annual Cost Burden (does not include hourly wage costs): \$0.

Affected Public: Business or other for profits (metal and nonmetal underground mines deemed to be gassy).

Description: The Department's regulations at 30 CFR 57.22606(a) provide procedures by which a mine operator shall notify MSHA of all explosive materials and blasting units prior to their use in underground gassy metal and nonmetal mines. MSHA uses the information provided by the mine operator to determine whether nonapproved blasting materials and explosives and procedures are safe for use in a gassy underground metal or nonmetal mine. Without such determinations, miners may be exposed to significant safety risks. For additional information, see related notice published in the **Federal Register** on September 28, 2009, at Vol. 74, page 49401.

Darrin A. King,

Departmental Clearance Officer.

DEPARTMENT OF LABOR

Employment and Training Administration

[TA-W-64,668]

Tenneco, Inc., Including On-Site Leased Workers From Elite Staffing, Inc., Cozad, NE; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273), and Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the

Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance on January 15, 2009, applicable to workers of Tenneco, Inc., Cozad, Nebraska. The notice was published in the **Federal Register** on February 2, 2009 (74 FR 5871).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in activities related to the production of shock absorbers.

New information shows that workers leased from Elite Staffing, Inc. were employed on-site at the Cozad, Nebraska location of Tenneco, Inc.

The Department has determined that these workers were sufficiently under the control of Tenneco, Inc. to be considered leased workers.

The intent of the Department's certification is to include all workers of the subject firm adversely affected as a supplier to a trade certified primary firm.

Based on these findings, the Department is amending this certification to include workers leased from Elite Staffing, Inc. working on-site at the Cozad, Nebraska location of the subject firm.

The amended notice applicable to TA-W-64,668 is hereby issued as follows:

All workers of Tenneco, Inc., including on-site leased workers from Elite Staffing, Inc., Cozad, Nebraska, who became totally or partially separated from employment on or after December 12, 2007, through January 15, 2011, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

Signed at Washington, DC this 8th day of December 2009.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.
