SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS), Alaska Regional Office, is requesting renewal of the currently approved information collection for the Economic Data Reporting for the Bering Sea and Aleutian Island Crab Rationalization Program (CR Program). The CR Program is a limited access privilege program managed under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the Consolidated Appropriations Act of 2004 (Pub. L. 108–199, Sec. 801), and the Fishery Management Plan for Bering Sea/Aleutian Islands King and Tanner Crab (FMP). The CR Program allocates crab among harvesters, processors, Western Alaska Community Development Quota groups, and coastal communities for nine crab fisheries. The CR Program also includes a comprehensive economic data collection program requiring participants to complete annual Economic Data Reports (EDRs). These EDRs are intended to aid the North Pacific Fishery Management Council (Council) and NOAA's National Marine Fisheries Service (NMFS) to assess the performance of the CR Program and to develop amendments to the FMP or regulations to mitigate any unintended consequences of the CR Program.

NMFS has designated Pacific States Marine Fisheries Commission (PSMFC) as the Data Collection Agent for the CR Program. NMFS and PSMFC administer the crab EDR program under the guidance of the Council. The crab EDR

program collects annually reported cost, revenue, ownership, and employment data from harvest and processing sector participants in the CR Program fisheries. This information is necessary to monitor and assess the economic effects of the CR Program and support rigorous economic analysis to promote the goals and objectives of the Magnuson-Stevens Act and the FMP. Participation in the crab EDR program is mandatory under Federal fisheries regulations at 50 CFR 680.6 for all active vessel and processing sector participants in the CR Program fisheries.

This information collection contains the three EDRs used by participants in the CR Program: (1) Catcher Vessel Crab EDR, (2) Catcher/Processor Crab EDR, and (3) Processor Crab EDR. An EDR is required from any owner or leaseholder of a vessel or processing plant, or a holder of a registered crab receiver permit that harvested, processed, custom processed, or obtained custom processing for CR Program crab in specified Bering Sea and Aleutian Islands crab fisheries during the prior calendar year. The EDRs are submitted annually and are due on or before July 31 of the following year. Additional information on the crab EDR program is available on the PSMFC website at http://www.psmfc.org/alaska_crab/.

II. Method of Collection

The EDRs may be submitted online, by mail, or by fax. PSMFC mails EDR announcements and filing instructions to respondents by the end of May each year. Respondents are encouraged to complete the forms online on the PSMFC website at http://www.psmfc.org/alaska_crab/. EDR forms also are available on the PSMFC website as a fillable PDF; these may be downloaded, printed, and mailed or faxed to PSMFC.

SUPPLEMENTARY INFORMATION:

Title: “Real-Time Public Reporting” (OMB Control No. 3038–0070). This is a request for revision of a currently approved information collection.

Abstract: Pursuant to section 2(a)(13) of the Commodity Exchange Act (“CEA”), the Commission is authorized and required to promulgate regulations for the real-time public reporting of swap transaction and pricing data.² Part 43 of the Commission’s regulations implements the real-time public reporting rules. The collection of information is needed to ensure that swap data repositories publicly disseminate swap data as required by the Commodity Exchange Act, as amended by the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”). The Dodd-Frank Act directed the CFTC to adopt rules providing for the real-time public reporting and dissemination of swap data and rules for block trades.

In 2020, the Commission amended part 43 by issuing the Real-Time Public Reporting Requirements final rule (“2020 RTR Final Rule”).³ The 2020 RTR Final Rule revised the method and timing of real-time reporting and public dissemination, generally and for specific types of swaps; the delay and anonymization of the public dissemination of block trades and large notional trades; the standardization and validation of real-time reporting fields; the delegation of specific authority to Commission staff; and the clarification

of specific real-time reporting questions and common issues.⁴

On June 10, 2022, the Commission staff issued a Staff Advisory on Reporting of Errors and Omissions in Previously Reported Data (“Advisory”),⁵ which included a form as an Appendix (“Form”). The Advisory specifies the format and manner for submitting information required under regulations 45.14 and 43.3(e), and accordingly amended Information Collection 3038–0070. Subsequently, the Commission has updated its estimate of the burdens associated with OMB Control No. 3038–0070.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.⁶ On May 9, 2025, the Commission published in the **Federal Register** notice of the proposed extension of this information collection and provided 60 days for public comment on the proposed extension, 90 FR 19685 (“60-Day Notice”). The Commission did not receive any relevant comments on the 60-Day Notice.

Burden Statement: Provisions of CFTC Regulations 43.3, 43.3(e), 43.4, and 43.6 result in information collection requirements within the meaning of the PRA. With respect to the ongoing reporting and recordkeeping burdens associated with swaps, the CFTC believes that SDRs, SDs, MSPs, SEFs, DCMs, DCOs, and non-SD/MSP/DCO counterparties incur an annual time-burden of 803,142 hours. This time-burden represents a proportion of the burden respondents incur to operate and maintain their swap data recordkeeping and reporting systems.

Respondents/Affected Entities: SDRs, SDs, MSPs, and other counterparties to swap transaction (*i.e.*, non-SD/MSP/DCO counterparties).

Estimated number of respondents: 1,742.

Estimated average burden hours per respondent: 461.

Estimated total annual burden hours on respondents: 803,142.

Frequency of Collection: Ongoing.

Dated: July 10, 2025.

Deputy Secretary of the Commission.
