

relinquishment of the sole grazing preference/permit for the Big Bowns Bench allotment and the Last Chance grazing allotment. Analysis and decisions in the plan amendment/EA apply only to those allotments.

2. The plan amendment/EA will be completed in compliance with the Federal Land Policy and Management Act, the National Environmental Policy Act, and all other applicable laws.

3. The plan amendment/EA will be developed using an interdisciplinary approach (e.g., a team approach using a variety of skills and perspectives such as rangeland management specialists, riparian specialists, etc.), with input from interested public, the State of Utah, local governments, and other Federal agencies and entities.

4. Decisions in the plan amendment/EA will provide for the balance of long-term sustainability with short-term uses.

5. This plan amendment/EA will incorporate and comply with the Fundamentals of Rangeland Health and Standards and Guidelines for Grazing Administration.

Elena Daly,

Acting Assistant Director, Renewable Resources and Planning.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. NRTL1-89]

Intertek Testing Services, NA, Inc.; Expansion of Recognition

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: This notice announces the Agency's final decision on the application of Intertek Testing Services, NA, Inc. (ITSNA), for expansion of its recognition to use an additional site.

EFFECTIVE DATE: This recognition becomes effective on January 28, 2002 and, unless modified in accordance with 29 CFR 1910.7, continues in effect while ITSNA remains recognized by OSHA as an NRTL.

FOR FURTHER INFORMATION CONTACT: Bernard Pasquet, Office of Technical Programs and Coordination Activities, NRTL Program, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N3653, Washington, DC 20210, or phone (202) 693-2110.

SUPPLEMENTARY INFORMATION:

Notice of Final Decision

The Occupational Safety and Health Administration (OSHA) hereby gives notice of the expansion of recognition of Intertek Testing Services, NA, Inc. (ITSNA), as a Nationally Recognized Testing Laboratory (NRTL). ITSNA's expansion covers the use of an additional site. The NRTL's scope of recognition may be found in the following informational Web page: <http://www.osha-slc.gov/dts/otpc/nrtl/its.html>.

OSHA recognition of an NRTL signifies that the organization has met the legal requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products "properly certified" by the NRTL to meet OSHA standards that require testing and certification.

The Agency processes applications by an NRTL for initial recognition or for expansion or renewal of this recognition following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two

notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding and, in the second notice, the Agency provides its final decision on an application. These notices set forth the NRTL's scope of recognition or modifications of this scope.

OSHA published the notice of its preliminary findings on the expansion request in the **Federal Register** (see 66 FR 55208, November 1, 2001). The notice requested submission of any public comments by November 16, 2001. OSHA received no comments concerning the application. ITSNA had submitted its application for recognition of the Stockholm site in February 1997 (see Exhibit 35), and in the November 1 preliminary notice we explain the delay in processing the application. The NRTL Program staff performed the on-site review (assessment) of the facility on September 24-25, 1998, and provided a positive recommendation on the expansion in their report (see Exhibit 36).

The most recent notice published by OSHA for ITSNA's recognition, prior to the November 1 preliminary notice, covered its renewal of recognition, which OSHA granted on May 29, 2001 (66 FR 29178).

OSHA is recognizing the additional ITSNA site listed below. This site may use the supplemental programs included under ITSNA's scope of recognition. However, recognition of this site is limited to performing testing to the test standards for which OSHA has recognized ITSNA, and for which the site has the proper capability and control programs. This treatment is consistent with the recognition that OSHA has granted to other NRTLs that operate multiple sites.

Under its current operations as an NRTL, ITSNA authorizes the use of the "ETL" certification mark or certifications only from its Cortland location. In addition, only the Vancouver, Antioch, and Madison sites identified below authorize the use of the "WHI" (Warnock Hersey) certification mark or certifications. Therefore, OSHA currently does not recognize any other ITSNA site, including the Stockholm site, for certifying products under ITSNA's NRTL operations.

You may obtain or review copies of all public documents pertaining to the application by contacting the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N2625, Washington, DC 20210. You should refer to docket No. NRTL 1-
