## SUPPLEMENTARY INFORMATION:

### I. Abstract

The Quarterly Survey of Ocean Freight Revenues and Foreign Expenses of U.S. Carriers (BE–30) collects data from U.S. ocean freight carriers (owners and operators) that engaged in the international transportation of freight, cargo, and/or passengers between U.S. and foreign ports or between foreign ports, if total covered revenues or total covered expenses were \$500,000 or more in the previous year or are expected to be \$500,000 or more during the current year.

The Quarterly Survey of U.S. Airline Operators' Foreign Revenues and Expenses (BE–37) collects data from U.S. airline operators engaged in the international transportation of passengers or of U.S. export freight, or the transportation of passengers or freight between two foreign points, if total covered revenues or total covered expenses were \$500,000 or more in the previous year or are expected to be \$500,000 or more during the current year.

The data are needed to monitor U.S. trade in transport services, to analyze the impact of these cross-border services on the U.S. and foreign economies, to compile and improve the U.S. economic accounts, to support U.S. commercial policy on trade in transport services, to conduct trade promotion, and to improve the ability of U.S. businesses to identify and evaluate market opportunities. The data are used in estimating the trade in transport services component of the U.S. international transactions accounts (ITAs) and national income and product accounts (NIPAs).

The Bureau of Economic Analysis (BEA) is not proposing any changes to the surveys reporting requirements or to the data items collected on the surveys.

BEA does not plan to change the exemption levels used for the current quarterly surveys. BEA estimates there will be no change in the average number of burden hours per response. The language in the instructions and definitions will be reviewed and adjusted as necessary to clarify survey requirements.

### II. Method of Collection

BEA contacts potential respondents by mail at the end of each quarter. Respondents would be required to file the completed BE–30 and BE–37 forms within 30 days after the end of each quarter of the year.

BE-30 reports would be required from each U.S. ocean freight carrier (owners and operators) that engaged in the international transportation of freight, cargo, and/or passengers between U.S. and foreign ports or between foreign ports, whose total covered revenues or total covered expenses were \$500,000 or more in the previous year or are expected to be \$500,000 or more during the current year.

BE-37 reports would be required from each from U.S. airline operator engaged in the international transportation of passengers or of U.S. export freight, or the transportation of freight or passengers between two foreign points, whose total covered revenues or total covered expenses were \$500,000 or more in the previous year or are expected to be \$500,000 or more during the current year.

BEA offers its electronic filing option, the eFile system, for use in reporting on Form BE-30 and BE-37 surveys. For more information about eFile, go to [www.bea.gov/efile](http://www.bea.gov/efile). In addition, BEA posts all its survey forms and reporting instructions on its website, [www.bea.gov/ssb](http://www.bea.gov/ssb). These may be downloaded, completed, printed, and submitted via fax or mail.
