k. *Description of Request*: The licensee requests a variance from Article 418 which requires, in part, the licensee to operate and maintain the Tugalo Park recreation site. As part of a hydro modernization program, the licensee is planning to replace several plant systems, including the turbines and generators, spillway gates, control system, and associated auxiliary equipment, at the Tugalo dam and powerhouse. Due to the rugged terrain and limited access in the area, the licensee would bring the heavy equipment and materials needed for the modernization work through the Yonah Lake and use the Tugalo Park area for construction staging. For safety and security reasons, the licensee is proposing to temporarily close the park to public access, starting October 1, 2021 for up to five years (October 2026). Following completion of the modernization work, the licensee would replace the existing recreation facilities (10 primitive campsites, restrooms, and a boat ramp). There are other nearby recreation sites and opportunities that would be available to the public during the time of the site closure.

Lock 7 Hydro Partners, LLC; Notice of Intent To Prepare an Environmental Assessment

On April 30, 2020, Lock 7 Hydro Partners, LLC filed an application for a new major license for the 2.21-megawatt Mother Ann Lee Hydroelectric Station Water Power Project (Mother Ann Lee Project) (FERC No. 539). The Mother Ann Lee Project is located on the Kentucky River in Mercer, Jessamine, and Garrard Counties, Kentucky. The project does not occupy federal land.

In accordance with the Commission's regulations, on February 26, 2021, Commission staff issued a notice that the project was ready for environmental analysis (REA notice). Based on the information in the record, including comments filed on the REA notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the

application to license the Mother Ann Lee Project.

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The application will be processed according to the following schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA.	October 2021. ¹
Comments on EA	November 2021.

Any questions regarding this notice may be directed to Joshua Dub at (202) 502–8138 or joshua.dub@ferc.gov.
