Department of the Air Force

[No. USAF-2007-0006]

Submission for OMB Review; Comment Request

ACTION: Notice.

The Department of Defense has submitted to OMB for clearance, the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

DATES: Consideration will be given to all comments received by June 25, 2007.

Title, Form, and OMB Number: Air Force Academy Request for Secondary School Transcript, USAFA Form 148; OMB Control Number 0701-0066.

Type of Request: Extension.

Number of Respondents: 7,954.

Responses Per Respondent: 1.

Annual Responses: 7,954.

Average Burden Per Response: 30 minutes for candidate/15 minutes for counselor.

Annual Burden Hours: 5,966.

Needs and Uses: The collection of information is necessary to obtain data on candidate's background and aptitude in determining eligibility and selection to the Air Force Academy.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Required to Obtain or Retain Benefits.

OMB Desk Officer: Ms. Hillary Jaffe.

Written comments and recommendations on the proposed information collection should be sent to Ms. Jaffe at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

You may also submit comments, identified by docket number and title, by the following method:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name, docket

number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

DOD Clearance Officer: Ms. Patricia Toppings.

Written requests for copies of the information collection proposal should be sent to Ms. Toppings at WHS/ESD/ Information Management Division, 1777 North Kent Street, RPN, Suite 11000, Arlington, VA 22209-2133.

Dated: May 18, 2007.

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Intent To Prepare a Draft Environmental Impact Statement for a New Borrow Area for the Martin County Beach Erosion Control Project Located in Martin County, FL

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The U.S. Army Corps of Engineers, Jacksonville District, intends to prepare a Draft Environmental Impact Statement (DEIS) for a new borrow area for the Martin County Beach Erosion Control Project. In cooperation with Martin County, the study will evaluate alternative sand sources that will maximize shore protection while minimizing environmental impacts.

ADDRESSES: U.S. Army Corps of Engineers, Planning Division, Environmental Branch, P.O. Box 4970, Jacksonville, FL 32232-0019.

FOR FURTHER INFORMATION CONTACT: Mr. Paul M. DeMarco, by e-mail Paul.M.DeMarco@saj02.usace.army.mil or by telephone at (904) 232-1897.

SUPPLEMENTARY INFORMATION:

a. **Proposed Action.** The Martin County, FL, Beach Erosion Control project was authorized by the Water Resources Development Act of 1990 passed November 28, 1990 (Pub. L. 101-640) in accordance with the report of the Chief of Engineers dated November 20, 1989. The final Environmental Impact Statement was filed with the

Environmental Protection Agency in 1986. Prior to construction, General Design Memorandum (GDM) dated June 1994 was prepared. The project was authorized for 50 years from date of initial construction in 1996. The authorized plan consisted of restoration of 4 miles of shorefront southward from the St. Lucie County line to near the limit of Stuart Public Park (R1-R25). The previously approved borrow area has been depleted. The DEIS will evaluate various sources of beach quality sand, the impacts from removal of this sand on the environment and coastal processes, and the impacts from nourishing the beach with this sand. Subsequently a final EIS will be published.

b. **Alternatives.** Specific proposed alternatives at this time include hydraulic dredging of beach quality sand from offshore shoals, truck-haul beach fill from upland sources, and no-action.

c. **Scoping Process.** The scoping process as outlined by the Council on Environmental Quality will be utilized to involve Federal, State, and local agencies, affected Indian tribes, and other interested persons and organizations. A scoping letter will be sent to the appropriate parties requesting their comments and concerns. Any persons and organizations wishing to participate in the scoping process should contact the U.S. Army Corps of Engineers at (see **ADDRESSES**).

Significant issues to be analyzed to the DEIS would include effects on Federally listed threatened and endangered species, Essential Fish Habitat with particular concern for nearshore hardbottom habitat. Other issue would be health and safety, water quality, aesthetics and recreation, fish and wildlife resources, cultural resources, socio-economic resources, and any issues identified through scoping and public involvement.

The proposed action would be coordinated with the U.S. Fish and Wildlife Service and the National Marine Fisheries Service (NMFS) pursuant to Section 7 of the Endangered Species Act, with the NMFS concerning Essential Fish Habitat, and with the State Historic Preservation Officer.

The proposed action would also involve evaluation for compliance with guidelines pursuant to Section 404(b) of the Clean Water Act; application (to the State of Florida) for Water Quality Certification pursuant to Section 401 of the Clean Water Act; certification of state lands, easement, and rights of way; and determination of Coastal Zone Management Act consistency.
