SUMMARY: On November 10, 2005, the Federal Aviation Administration (FAA) published a direct final rule to amend its regulation on the use of pilot supplemental oxygen with an effective

date of January 9, 2006. In accordance with § 11.31, which states if the FAA receives an adverse comment it will notify the public by publishing a document in the **Federal Register**, the FAA is using this notice to withdraw this direct final rule in whole.
