Fisheries and Habitat Conservation and Migratory Birds Programs; Final Land-Based Wind Energy Guidelines

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of the final voluntary Land-Based Wind Energy Guidelines (Guidelines). These Guidelines supersede the Service's 2003 voluntary interim guidelines for land-based wind energy development. They respond to accelerated development of land-based wind energy generation projects in the United States. These voluntary Guidelines provide developers and agency staff with an iterative process to make sound decisions in selecting sites to avoid, minimize and compensate for adverse effects to wildlife, particularly birds and bats, and their habitats resulting from construction, operation, and maintenance of land-based wind energy facilities.

DATES: These voluntary Guidelines are effective March 26, 2012.

ADDRESSES: The Guidelines may be downloaded from <http://www.fws.gov/>

windenergy. To request a copy of the draft Guidelines by U.S. Mail, write: U.S. Fish and Wildlife Service, 4401 North Fairfax Drive; Room 840, Arlington, VA 22203. You may also send an email request to: windenergy@fws.gov. Please specify whether you want to receive a hard copy by U.S. mail or an electronic copy by email.

FOR FURTHER INFORMATION CONTACT:

Christy Johnson-Hughes, Division of Habitat and Resource Conservation, U.S. Fish and Wildlife Service, Department of the Interior, (703) 358-1922.

Individuals who are hearing-impaired or speech-impaired may call the Federal Relay Service at 1-800-877-8337 for TTY assistance, 24 hours a day, 7 days a week.

SUPPLEMENTARY INFORMATION: The mission of the U.S. Fish and Wildlife Service is to work with others to conserve, protect, and enhance fish, wildlife, plants, and their habitats for the continuing benefit of the American people. As part of this mission, we implement statutes including the Endangered Species Act (ESA; 16 U.S.C. 1531 *et seq.*), the Migratory Bird Treaty Act (MBTA; 16 U.S.C. 703-711), and the Bald and Golden Eagle Protection Act (BGEPA; 16 U.S.C. 668-668d). These statutes prohibit taking of federally listed species, migratory birds, and eagles unless otherwise authorized.

Increased energy demands and the nationwide goal to increase energy production from renewable sources have intensified the development of renewable energy facilities, including wind energy. The Service supports renewable energy development that is compatible with wildlife conservation.

The voluntary Guidelines will provide Service staff, developers, landowners and other stakeholders with a tool to assist in avoiding, minimizing, and compensating for significant adverse impacts to wildlife and their habitats. Adherence to the Guidelines is voluntary and does not relieve any

individual, company, or agency of the responsibility to comply with laws and regulations. However, if a violation of law occurs, the Service will consider a developer's documented efforts to communicate with the Service and adhere to the Guidelines. The Guidelines include a Communications Protocol that provides guidance to both developers and Service personnel regarding expectations of appropriate communication and documentation.

The Service anticipates that these Guidelines, when used in concert with appropriate regulatory tools and other existing policies, provide the best practical approach for wildlife conservation.

Background

In July 2003, the Service released voluntary interim guidelines for land-based wind energy projects to assist developers in avoiding, minimizing, and/or compensating for effects to wildlife and their habitats related to land-based wind energy facilities. In 2007, the Secretary of the Interior (Secretary) established the Wind Turbine Guidelines Advisory Committee (Committee) under the Federal Advisory Committee Act (5 U.S.C. App.). The Committee submitted final recommendations to the Secretary on March 4, 2010. The Service appreciates all the time and effort that members of the Committee devoted to developing their recommendations, as well as since that time, as the Service developed these final Guidelines. The Service used the recommendations as a basis to develop the Service's draft Guidelines, which we circulated for comment in February 2011 (76 FR 9590, February 18, 2011).

We announced several opportunities for the public to attend Committee meetings and to submit comments or otherwise participate in the development of the Guidelines as follows:

Federal Register citation	Date of publication	Purpose of notice
76 FR 18238	April 1, 2011	Announced Committee meeting of April 27, 2011.
76 FR 20006	April 11, 2011	Announced availability of teleconference line for April 27, 2011, Committee meeting.
76 FR 38677	July 1, 2011	Announced Committee meeting of July 20-21, 2011.
76 FR 48174	August 8, 2011	Announced Committee meeting of August 23, 2011.
76 FR 54481	September 1, 2011	Announced Committee meeting of September 20-21, 2011.

The Service received more than 30,000 comments (summarized below) on the draft Guidelines from a wide

range of interests, including Federal, State, and local agencies; tribes; wind energy developers; utilities; national

and local wildlife conservation organizations; universities; and concerned citizens. The Service made
