SUPPLEMENTARY INFORMATION: This ICR seeks to maintain PRA authority for the process by which a coal mine operator applies for a permit to fire more than 20 shots and to use nonpermissible explosives and/or shot-firing units. An application contains the safeguards the mine operator will employ to protect miners while using requested blasting items. Federal Mine Safety and Health Act section 313, 30 U.S.C. 873, authorizes these applications. Regulations 30 CFR 75.1321 outlines the procedures by which a permit may be issued for the firing of more than 20 boreholes and/or the use of nonpermissible shot-firing units in underground coal mines. Regulations 30 CFR 77.1909-1 outlines the procedures by which a coal mine operator may apply for a permit to use nonpermissible explosives and/or shot-firing units in the blasting of rock while sinking a shaft or slope in an underground coal mine. In addition, this ICR seeks to maintain PRA authorization for the 30 CFR 75.1327 requirement that a qualified person post a warning to prohibit entry at each accessible entrance to the affected area when explosives have misfired.

These information collections are subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for these

information collections under Control Number 1219-0025.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this control number is scheduled to expire on November 30, 2013. The DOL seeks to extend PRA authorization for these information collections for three (3) more years, without any change to existing requirements. The DOL also notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on July 3, 2013 (78 FR 40195).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0025. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
