##### I. General Information

###### A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).

###### B. What should I consider as I prepare my comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through [www.regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

3. **Environmental justice.** EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement

of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

##### II. What action is the agency taking?

EPA is announcing its receipt of several pesticide petitions filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, requesting the establishment or modification of regulations in 40 CFR part 180 for residues of pesticide chemicals in or on various food commodities. The Agency is taking public comment on the requests before responding to the petitioners. EPA is not proposing any particular action at this time. EPA has determined that the pesticide petitions described in this document contain the data or information prescribed in FFDCA section 408(d)(2), 21 U.S.C. 346a(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petitions. After considering the public comments, EPA intends to evaluate whether and what action may be warranted. Additional data may be needed before EPA can make a final determination on these pesticide petitions.

Pursuant to 40 CFR 180.7(f), a summary of each of the petitions that are the subject of this document, prepared by the petitioner, is included in a docket EPA has created for each rulemaking. The docket for each of the petitions is available at <http://www.regulations.gov>.

As specified in FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), EPA is publishing notice of the petition so that the public has an opportunity to comment on this request for the establishment or modification of regulations for residues of pesticides in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.

**SUPPLEMENTARY INFORMATION:** In a proposed rule that published in the

#### **Paperwork Reduction Act of 1995 (PRA)**

This proposed rule contains new information collection requirements for which Office of Management and Budget approval is required under the PRA (44 U.S.C. 3501 *et seq.*). We may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

OMB has reviewed and approved the collections of information for (1) applications for abatement and depredation permits, (2) annual reporting for depredation permits, and (3) reporting of acquisition and disposition of migratory birds. These information collections are covered by existing OMB Control No. 1018–0022, which expires on May 31, 2017. OMB has also approved the recordkeeping and reporting associated with the depredation order for blackbirds, grackles, cowbirds, magpies, and crows and assigned OMB Control Number 1018–0146, which expires December 31, 2017.

We are requesting that OMB assign a new OMB control number for the proposed new requirements below. After we issue final regulations, we will incorporate the burden for the new information collection requirements into OMB Control Number 1018–0022 and discontinue the new number.

- Application—FWS Form 3–200–79. We are revising the application form to reflect the increase in the application fee from \$100 to \$150.

- Abatement permittees must provide each of their subpermittees with a legible copy of their permit and an original signed and dated letter designating the person as a subpermittee for part or all of the authorized activities. (§ 21.32(e)(2)(ii)).

- Subpermittees must report take under a depredation order to the permit holder. (§ 21.32(e)(3)(iii)(A)).

- Permittees must immediately report any unauthorized take of federally protected wildlife, disturbance of bald eagles or golden eagles, or harassment of endangered species. (§ 21.32(e)(3)(iii)(C)).
