

plans, which leverage the Defense Suicide Prevention Office's (DSPO's) LMS suite of evidence-informed tools. In accordance with guidance, and with recommendations from the Government Accountability Office to assess the efficacy of nonclinical suicide prevention efforts, DSPO aims to help the Services conduct a thorough evaluation of their LMS outreach efforts.

DSPO has contracted with the Center for Naval Analyses (CNA) to assist the Services in meeting the requirements set forth in DoD Instruction 6490.16 that all suicide prevention activities are developed from a relevant evidence-base and have an evaluation capability prior to implementation. CNA, in conjunction with the participating Services (*i.e.*, Air Force, Army, Navy, and Special Operations Command, propose an information collection covering LMS evaluation activities specific to the needs of each respective Service to assess the implementation, acceptability, and/or effect of their specific LMS activities and materials. Depending on the nature of the selected evaluation activities, study data will be collected via KI interviews and/or a survey.

This **Federal Register** Notice covers the evaluation activities specific to the Navy. The intent of voluntary Navy Gun Lock Distribution KI interviews is to help the Navy evaluate their gun lock distribution efforts and learn how the Navy may improve its safe storage practice materials, outreach, and implementation efforts. The intent of the voluntary Navy Community LMS Survey is to learn about the Navy

community's awareness of current LMS programs, preferences for safety devices and safe storage locations, and thoughts about the place of safety in Navy culture.

The Navy will use the results of the KI interviews and the results of the survey to tailor their LMS activities, materials, messaging, training, and outreach efforts to maximize their effectiveness with their Servicemembers and communities.

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(5)(C) of the Arms Export Control Act (AECA), as amended, we are forwarding Transmittal No. 22-0J. This notification relates to enhancements or upgrades from the level of sensitivity of technology or capability described in the Section 36(b)(1) AECA certification 20-69 of October 21, 2020.

Sincerely,

James A. Hursch
 Director

Transmittal No. 22-0J

**REPORT OF ENHANCEMENT OR
 UPGRADE OF SENSITIVITY OF
 TECHNOLOGY OR CAPABILITY (SEC.
 36(B)(5)(C), AECA)**

(i) *Purchaser:* Taipei Economic and Cultural Representative Office (TECRO) in the United States

(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 20-69

Date: October 21, 2020

Military Department: Navy

Funding Source: National Funds

(iii) *Description:* On October 21, 2020, Congress was notified by Congressional certification transmittal number 20-69 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of one hundred thirty-five (135) AGM-

84H Standoff Land Attack Missile Expanded Response (SLAM-ER) Missiles; four (4) ATM-84H SLAM-ER Telemetry Missiles; and twelve (12) CATM-84H Captive Air Training Missiles (CATM). Also included are one hundred fifty-one (151) containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor representatives' technical assistance, engineering and logistics support services, and other related elements of logistics support. The estimated total cost was \$1.008 billion. Major Defense Equipment (MDE) constituted \$608 million of this total.

This transmittal reports increases in MDE value by \$147 million to \$755

million and non-MDE value by \$145 million to \$545 million. This will result in an overall total case value increase of \$292 million to \$1.3 billion.

(iv) *Significance:* Reassessment of recent market trends by the Original Equipment Manufacturer (OEM) has identified an increase in cost of parts from suppliers, ranging from 20% to 120% over the past 12 months. Global supply chain logistics issues are impacting Long-lead items and increasing volatility to pricing, as some sub-tier suppliers are refusing to bid and others are offering pricing that is only valid for very limited timeframes, resulting in the need to qualify new sources. The OEM has repriced the effort to account for these price increases to add to the stability of this

effort. There is no change to sensitive equipment or quantity/type of MDE previously notified.

(v) *Justification*: This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and to maintain a credible defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

(vi) *Sensitivity of Technology*: The Sensitivity of Technology statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is CONFIDENTIAL.

(vii) *Date Report Delivered to Congress*: August 19, 2022
