SUPPLEMENTARY INFORMATION:

Abstract: Beginning in 1997, the U.S. Geological Survey has collected voluntary data regarding amphibian malformations. Sightings are reported via an electronic form. The form is sent to the USGS National Biological Information Infrastructure (NBII)

program, which manages the North American Reporting Center for Amphibian Malformations (NARCAM). Each malformation occurrence submitted is carefully reviewed by trained professional herpetologists for quality and accuracy. Data associated with the validated reports, including species, malformation type, and geospatial information, are made accessible to the public via the NARCAM Web site. Information may be used by scientists and resource managers within Federal, State, and local agencies, as well as the general public, to identify areas where malformed amphibians have been reported, and the rates of occurrence. The NARCAM dataset is the only publicly available, national dataset on amphibian malformations.

We will be requesting OMB approval for an extension of the current form used for the NARCAM data collection efforts.

The following information is provided for the information collection:

Title: Sale of Mineral Materials (43 CFR part 3600).

Forms: Form 3600–9, Contract for the Exclusive Sale of Mineral Materials.

OMB Control Number: 1004–0103.

Abstract: The Mineral Materials Act, 30 U.S.C. 601 and 602, authorizes disposals of mineral materials (such as sand, gravel, and petrified wood) from public lands. This information collection request pertains to mineral sales contracts in accordance with regulations at 43 CFR part 3600. Form 3600–9 (Contract for the Sale of Mineral Materials) is the only form currently approved by OMB under control number 1004–0103. The BLM proposes to change the title of Form 3600–9 to “Contract for the Exclusive Sale of Mineral Materials.”

Frequency of Collection: The BLM collects the information on occasion. Responses are required in order to obtain or retain a benefit.

Estimated Number and Description of Respondents: An estimated 400 businesses annually submit applications to purchase or use mineral materials from public lands.

Estimated Reporting and Recordkeeping “Hour” Burden: 2,305 responses and 9,808 hours annually. The following table details the individual components and respective hour burdens of this information collection request:
