

decrease by 31 acres, from 1,784 acres to 1,753 acres. The BLM's approval of the proposed plan of operations modification would extend the mining and processing until 2034.

The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the process for developing the EIS. At present, the BLM has identified the following preliminary issues: (a) Potential to create acid rock or heavy metals drainage from mining activities, and ensuring that there is no degradation of waters of the state or unnecessary or undue degradation of public lands; (b) Potential for an acidic pit lake to form after mining activities cease; (c) Potential impacts to Golden Eagle habitat and wildlife habitat; and (d) Potential impacts to cultural sites. The BLM will analyze a combination of proposed environmental measures and possible mitigation to reduce or eliminate any impacts associated with the proposed action.

The BLM will use NEPA public participation requirements to assist the agency in satisfying the public involvement requirements under section 106 of the National Historic Preservation Act (NHPA) (16 U.S.C. 470(f)) pursuant to 36 CFR 800.2(d)(3). The information about historic and cultural resources within the area potentially affected by the proposed plan of operations modification will assist the BLM in identifying and evaluating impacts of approving the mine expansion to such resources in the

context of both NEPA and section 106 of the NHPA.

The BLM will consult with Native American tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed plan of operations modification that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.
