**Submission for OMB Review;  
Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* National Oceanic and Atmospheric Administration (NOAA).

*Title:* Reporting Requirements for Sea Otter Interactions with the Pacific Sardine Fishery Coastal Pelagic Species Fishery Management Plan.

*OMB Control Number:* 0648–0566.

*Form Number(s):* NA.

*Type of Request:* Regular submission (extension of a currently approved information collection).

*Number of Respondents:* 2.

*Average Hours per Response:* 15 minutes.

*Burden Hours:* 30 minutes (rounded up to 1 hour).

*Needs and Uses:* This request is for extension of a currently approved information collection. In accordance with the regulations implementing the Endangered Species Act (ESA), National Marine Fisheries Service (NMFS) initiated an ESA section 7 consultation with the United States Fish and Wildlife Service (USFWS) regarding the possible effects of implementing Amendment 11 (71 FR 36999) to the Coastal Pelagic Species (CPS) Fishery Management Plan (FMP). USFWS determined that formal consultation was necessary on the possible effects to the threatened southern sea otter. USFWS completed a biological opinion for this action and although it was concluded that fishing activities were not likely to jeopardize the continued existence of the southern sea otter there remained the potential to incidentally take southern sea otters. USFWS determined that certain measures should be put in place to ensure the continued protection of the species. Therefore on May 30, 2007, NMFS published a final rule (72 FR 29891) implementing new reporting requirements and conservation measures under the CPS FMP. This included the requirement to report any

interactions that may occur between a CPS vessel and/or fishing gear and sea otters within 24 hours to the Regional Administrator (RA). With the exception of an entanglement, all other observations must be reported within 20 days to the RA.

*Affected Public:* Business or other for-profit organizations.

*Frequency:* On occasion.

*Respondent’s Obligation:* Mandatory.

*OMB Desk Officer:* David Rostker,  
(202) 395–3897.

**Submission for OMB Review;  
Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

*Agency:* U.S. Census Bureau.

*Title:* 2008 Panel of the Survey of Income & Program Participation, Wave 8 Topical Modules.

*OMB Control Number:* 0607–0944.

*Form Number(s):* SIPP–28805(L) Director’s Letter; SIPP/CAPI Automated Instrument; SIPP28003 Reminder Card.

*Type of Request:* Revision of a currently approved collection.

*Burden Hours:* 143,303.

*Number of Respondents:* 94,500.

*Average Hours per Response:* 30 minutes.

*Needs and Uses:* The U.S. Census Bureau requests authorization from the Office of Management and Budget (OMB) to conduct the Wave 8 interview for the 2008 Panel of the Survey of Income and Program Participation

(SIPP). The core SIPP and reinterview instruments were cleared under Authorization No. 0607-0944.

The SIPP represents a source of information for a wide variety of topics and allows information for separate topics to be integrated to form a single and unified database so that the interaction between tax, transfer, and other government and private policies can be examined. Government domestic policy formulators depend heavily upon the SIPP information concerning the distribution of income received directly as money or indirectly as in-kind benefits and the effect of tax and transfer programs on this distribution. They also need improved and expanded data on the income and general economic and financial situation of the U.S. population. The SIPP has provided these kinds of data on a continuing basis since 1983, permitting levels of economic well-being and changes in these levels to be measured over time.

The survey is molded around a central "core" of labor force and income questions that remain fixed throughout the life of a panel. The core is supplemented with questions designed to answer specific needs, such as estimating eligibility for government programs, examining pension and health care coverage, and analyzing individual net worth. These supplemental questions are included with the core and are referred to as "topical modules."

The topical modules for the 2008 Panel Wave 8 are as follows: Annual Income and Retirement Accounts; Taxes; Child Care; and Work Schedule. These topical modules were previously conducted in the SIPP 2008 Panel Wave 5 instrument. Wave 8 interviews will be conducted from January 1, 2011 through April 30, 2011.

The SIPP is designed as a continuing series of national panels of interviewed households that are introduced every few years, with each panel having durations of approximately 3 to 4 years. The 2008 Panel is scheduled for four years and four months and includes thirteen waves which began September 1, 2008. All household members 15 years old or over are interviewed using regular proxy-respondent rules. They are interviewed a total of thirteen times (thirteen waves), at 4-month intervals, making the SIPP a longitudinal survey. Sample people (all household members present at the time of the first interview) who move within the country and reasonably close to a SIPP primary sampling unit (PSU) will be followed and interviewed at their new address. Individuals 15 years old or over who enter the household after Wave 1 will be

interviewed; however, if these people move, they are not followed unless they happen to move along with a Wave 1 sample individual.

The OMB has established an Interagency Advisory Committee to provide guidance for the content and procedures for the SIPP. Interagency subcommittees were set up to recommend specific areas of inquiries for supplemental questions.

The Census Bureau developed the 2008 Panel Wave 8 topical modules through consultation with the SIPP OMB Interagency Subcommittee. The questions for the topical modules address major policy and program concerns as stated by this subcommittee and the SIPP Interagency Advisory Committee.

Data provided by the SIPP are being used by economic policymakers, the Congress, State and local governments, and Federal agencies that administer social welfare or transfer payment programs, such as the Department of Health and Human Services and the Department of Agriculture.

*Affected Public:* Individuals or households.

*Frequency:* Every 4 months.

*Respondent's Obligation:* Voluntary.

**Legal Authority:** Title 13 U.S.C., Section 182.
