II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

ISE proposes to amend its rules regarding non-customer options orders. ISE rules currently prohibit members from entering non-customer market orders and non-customer limit orders that cross the market and that cannot be executed within two minimum variations below the best bid or above the best offer. This limitation on non-customer trading was included in the ISE rules at the time ISE was launched. Specifically, in support of this limitation, in its Form 1 application seeking registration as a national securities exchange, ISE represented that, in an electronic market, non-customer market orders have the potential to create market volatility by trading at different price levels until their order is fully executed. ISE further noted that, without this limitation, non-customers would be able to use large-size orders to quickly take out ISE's entire order book without giving other market participants an opportunity to react.⁵ Also, at the time this restriction

was adopted, there were various limitations imposed on non-customer trading. For example, displayed quotes were firm only for public customer orders. Since that time, electronic options trading has evolved. With the adoption of trade-through protection under the intermarket linkage, every order must be executed at the best quoted price. Further, ISE has also removed restrictions on non-customer trading. For example, Electronic Access Members ("EAMs") may now submit non-customer limit orders regardless of the size of the order where previously EAMs were prohibited from submitting orders for non-customers that caused ISE's best bid and offer to be for less than 10 contracts.⁶ The Exchange does not believe there is any reason to maintain the current restriction on non-customer market and marketable limit orders, and therefore proposes to delete Rule 717(a) in its entirety.

The Exchange also proposes to clarify in Rule 805(a) that market makers may enter market orders and fill-or-kill orders in the options classes to which they are appointed. The limitation on the types of orders market makers can enter in their appointed classes is intended to prevent market makers from having both standing limit orders and quotes in the same options class, which is why the rule specifically allows immediate-or-cancel orders. Like immediate-or-cancel orders, fill-or-kill orders and market orders are either filled immediately or automatically cancelled.⁷ Therefore, the Exchange believes that allowing ISE market makers to utilize these orders types is consistent with the Exchange's practice of not allowing market makers to have both standing limit orders and quotes in the same options class.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular,

Registration as a National Securities Exchange; Findings and Opinion of the Commission).

⁶ See Securities Exchange Act Release No. 49602 (April 22, 2004), 69 FR 23841 (April 30, 2004) (SR-ISE-2003-26).

⁷ ISE Rule 715 (Types of Orders) defines a fill-or-kill order as a limit order that is to be executed in its entirety as soon as it is received and, if not so executed, treated as cancelled. A market order is defined in Rule 715 as an order to buy or sell a stated number of options contracts that is to be executed at the best price obtainable when the order reaches the Exchange. Pursuant to ISE Rule 714, incoming non-customer orders (which includes fill-or-kill and market orders entered by market makers) that cannot be automatically executed on ISE because there is a better price on another options exchange are automatically rejected.

the requirements of Section 6(b) of the Act.⁸ Specifically, the Exchange believes the proposed rule change is consistent with Section 6(b)(5) of the Act's⁹ requirements that the rules of a national securities exchange be designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative acts and, in general, to protect investors and the public interest. In particular, the proposed rule change will permit members to enter non-customer market orders and non-customer limit orders and thus, enable the Exchange to compete effectively with other options exchanges who do not have a similar restriction.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing rule change does not: (1) Significantly affect the protection of investors or the public interest; (2) impose any significant burden on competition; and (3) become operative for 30 days after the date of this filing, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(6) thereunder.¹¹

At any time within 60 days of the filing of such proposed rule change the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public

In addition, Rule 19b-4(f)(6)(iii) requires that a self-regulatory organization submit to the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied the five-day pre-filing notice requirement.

[Release No. 34-58235; File No. SR-NYSE-2008-59]

Self-Regulatory Organizations; New York Stock Exchange, LLC; Notice of Filing of Proposed Rule Change To Reduce the Period Within Which Companies Must Issue a Press Release After the Exchange Notifies Them That They Are Noncompliant With Exchange Listing Requirements

July 28, 2008.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Exchange Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 22, 2008, New York Stock Exchange, LLC (the "NYSE" or the "Exchange") filed with the Securities and Exchange Commission (the "Commission" or "SEC") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Sections 802.02 and 802.03 of the Exchange's Listed Company Manual (the "Manual") to provide that the Exchange will require a U.S. company, upon receiving written notification that it has fallen below the Exchange's listing standards, to issue a press release within the same amount of time as allotted by the SEC for the company to disclose such an occurrence, but in no event later than four business days after receipt of such notification, and will require a non-U.S. company to issue a press release within 30 days of receiving written notification from the Exchange that it has fallen below the Exchange's listing standards. The text of the proposed rule change is available at <http://www.nyse.com>, the NYSE, and the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The NYSE has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Sections 802.02 and 802.03 of the Manual to provide that the Exchange will require a U.S. company, upon receipt of written notification that it has fallen below the Exchange's listing standards, issue a press release within the amount of time allotted by the SEC for companies to disclose such an occurrence. The Exchange will also require a non-U.S. company to issue a press release within 30 days of receiving written notification that it has fallen below the Exchange's listing standard.

Currently, Section 802.02 of the Manual requires a U.S. company to issue a press release within 45 days of receiving written notification from the Exchange that it has fallen below the Exchange's listing standards. However, SEC rules require the company to file a Form 8-K giving notice of that event within four business days of being notified by the Exchange.³ The Exchange believes that its own requirement is too long in light of the much earlier public notice required by the Form 8-K rule and that it is appropriate for the Exchange to issue a press release on the subject itself if the company has not acted within the period provided by Form 8-K and in any event no later than four business days after receipt of notification from the Exchange. The Exchange notes that companies that are incorporated in jurisdictions outside the United States but that do not qualify as foreign private

³ Item 3.01 of Form 8-K requires a registrant to file a Form 8-K within four business days of receipt of notice from the national securities exchange that maintains the principal listing for any class of the registrant's common equity that the registrant or such class of the registrant's securities does not satisfy a rule or standard for continued listing on the exchange.
