

- Draft Revised Standard for Infant Formula and Formulas for Special Medical Purposes Intended for Infants:
 - Section A: Draft Revised Standard for Infant Formula Proposals of the Working Group for the Section on Food Additives;
 - Section B: Formulas for Special Medical Purposes Intended for Infants.

- Advisory List of Nutrient Compounds for Use in Foods for Special Dietary Uses Intended for the Use by Infants and Young Children.

- Proposed Draft Recommendations on the Scientific Basis of Health Claims.

- Discussion Paper on the Application of Risk Analysis to the Work of the CCNFSDU.

Each issue listed will be fully described in documents distributed, or to be distributed, by the German Secretariat prior to the meeting. Members of the public may access or request copies of these documents at: <http://www.codexalimentarius.net/current.asp>.

Public Meeting

At the October 18th public meeting, draft U.S. positions on the agenda items will be described, discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be offered at the meeting or sent to the U.S. Delegate for the 27th Session of CCNFSDU, Dr. Barbara Schneeman (*see ADDRESSES*). Written comments should state that they relate to activities of the 27th Session of the CCNFSDU.

Additional Public Information

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that the public, and in particular minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it on-line through the FSIS Web page located at http://www.fsis.usda.gov/regulations/2005_Notices_Index/.

FSIS also will make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and other types of information that could affect or would be of interest to our constituents and stakeholders. The update is communicated via Listserv, a free electronic mail subscription service for industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals,

and other individuals who have requested to be included. The update also is available on the FSIS Web page. Through Listserv and the Web page, FSIS is able to provide information to a much broader, more diverse audience.

In addition, FSIS offers an electronic mail subscription service which provides an automatic and customized notification when popular pages are updated, including **Federal Register** publications and related documents. This service is available at http://www.fsis.usda.gov/news_and_events/email_subscription/ and allows FSIS customers to sign up for subscription options across eight categories. Options range from recalls to export information to regulations, directives, and notices.

Customers can add or delete subscriptions themselves and have the option to protect their accounts with passwords.

Done at Washington, DC on August 8, 2005.

F. Edward Scarbrough,

U.S. Manager for Codex Alimentarius.

BILLING CODE 3410-DM-P

DEPARTMENT OF AGRICULTURE

Forest Service

Rocky Mountain Region, Grand Mesa, Uncompahgre and Gunnison National Forest, Mesa County, CO; Supplemental Environmental Impact Statement for Sheep Flats Diversity Unit Timber Sales

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to supplement an environmental impact statement.

SUMMARY: The Forest Service will prepare a supplemental environmental impact statement for the Sheep Flats Diversity Unit Timber Sale to present additional information concerning Management Indicator Species (MIS), and Threatened, Endangered and Sensitive Species (TES).

DATES: Comments concerning the scope of the analysis must be received by 45 days after publication of the draft supplemental environmental impact statement. The draft supplemental environmental impact statement is expected August 2005 and the final supplemental environmental impact statement is expected October 2005.

ADDRESSES: Send written comments to Connie Clementson, District Ranger, Grand Valley Ranger District, 2777 Crossroads Blvd, Unit 1, Grand Junction, Colorado 81506.

FOR FURTHER INFORMATION CONTACT:

Carol McKenzie, Team Leader at cmckenzie@fed.us or (208) 634-0761; or Ken Anderson, Timber Group Leader, Forest Supervisor's Office, 2250 Highway 50, Delta, CO 81416.

SUPPLEMENTARY INFORMATION: The Forest Service is proposing to prepare a supplement to the final environmental impact statement for the Sheep Flats Diversity Unit Timber Sales. In accordance with FSH 1909.15, the 1998 final environmental impact statements and 2001 final supplemental environmental impact statement has been reviewed. New information have been discovered in the form of court decisions and regulations at 26 CFR 219 concerning the analysis and use of Management Indicator Species (MIS). In addition, species lists for Threatened, Endangered and Sensitive Species have changed since the final environmental impact statement and final supplemental environmental impact statement were issued. The forest Service will supplement the final environmental impact statement by analyzing and presenting additional information concerning wildlife resources. The scope and analysis of the proposed supplement to the final environmental impact statement will be limited to the Management Indicator Species Assessment, Amended Biological Assessment and Amended Biological Evaluation.

The original Notice of Intent for this project was published in the **Federal Register** Vol. 57, No. 31, February 14, 1992. A revised Notice of Intent was published in the **Federal Register** Vol. 61, No. 177, September 11, 1996. In June 1998, a Record of Decision was issued. This decision was appealed on August 17, 1998. On October 1, 1998, the Appeal Deciding Officer recommended that the June 1998 decision be reversed because of the deficiencies in the water quality and soils analyses. A Notice of Intent to supplement the final environmental impact statement with additional information regarding water quality and soils was published in the **Federal Register** Vol. 63, No. 222, November 18, 1998. A new Record of Decision and final supplemental environmental impact statement were approved on October 1, 2001 by then Forest Supervisor Robert L. Storch. The approved decision was to implement Alternative 4 and associated mitigation measures as detailed on pages 2 through 8 of the Record of Decision. This decision was appealed on November 19, 2001. The Appeal Deciding Officer upheld the decision on December 20, 2001.

Purpose and Need for Action

The draft supplemental environmental impact statement will not change the purpose and need for the Sheep Flats Diversity Unit Timber Sales as described on pages 1–1 through 1–3 of the final environmental impact statement. The scope of the draft supplemental environmental impact statement is only to provide additional analysis regarding wildlife resources.

Proposed Action

The draft supplemental environmental impact statement will not change the proposed action for the Sheep Flats Diversity Unit Timber Sales as described on pages 1–1 through 1–3 of the final environmental impact statement. The scope of the draft supplemental environmental impact statement is only to provide additional analysis regarding wildlife resources.

Responsible Official

The Responsible Official is Connie Clementson, District Ranger, Grand Valley Ranger District, 2777 Crossroads Blvd. Unit 1, Grand Junction, CO 81506.

Nature of Decision To Be Made

The Responsible Official will review the supplemental information and determine if the 2001 Record of Decision should be modified or if the original decision is to remain in effect and unchanged.

Scoping Process

Extensive public involvement has occurred on this project over the last 13 years in the form of news releases, field tours and public meetings. No additional scoping is planned for this supplement.

Comment Requested

A legal notice will be published in the newspaper of record and a Notice of Availability will be published in the **Federal Register** to inform the public that supplemental information is available for review and comment. The draft supplemental environmental impact statement will be distributed to all parties that received the 2001 final supplemental environmental impact statement and record of decision and to those parties that filed an appeal of the 2001 decision.

Early Notice of Importance of Public Participation in Subsequent Environmental Review

A draft supplemental environmental impact statement will be prepared for comment. The comment period on the draft supplemental environmental impact statement will be 45 days from

the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

(Authority: 40 CFR 1501.7 and 1508.22; Forest Service Handbook 1909.15, Section 21)

Dated: August 5, 2005.

Connie Clementson,
District Ranger.

BILLING CODE 3410–11–M

DEPARTMENT OF AGRICULTURE**Natural Resource Conservation Service****Canon City C–4 Dam Repair Project; Fremont County, CO**

AGENCY: Natural Resource Conservation Service, USDA.

ACTION: Notice of a Finding of No Significant Impact.

SUMMARY: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR Part 1500); and the Natural Resource Conservation Service Regulations (7 CFR Part 650); the Natural Resource Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Canon City C–4 Dam Repair Project, Fremont County, Colorado.

FOR FURTHER INFORMATION CONTACT:

Allen Green, Colorado State Conservationist, Natural Resource Conservation Service, 655 Parfet St., Lakewood, Colorado, 80215–5517, telephone (720) 544–2810.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action documents that the project will not cause significant local, regional, or national impacts on the human environment. The findings of Allen Green, State Conservationist, indicate that the preparation and review of an environmental impact statement is not needed for this project.

The project purpose is to restore the integrity of the C–4 Canon City watershed protection dam to the safety provided by the originally installed condition. The planned work consists of removing a portion of the upstream embankment slope to permit installation of a sloping filter consisting of imported aggregates and geotextile. Existing cracks and voids will be filled with fine aggregate to the extent feasible, and the embankment will be restored to its original line and grade using the soil removed from the upstream slope. These repairs meet current standards & specifications for dam safety and design.

This Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State and Local agencies and interested parties. Copies of the FONSI and Plan/Environmental Assessment are available by request from Allen Green, Colorado State Conservationist. Basic data developed during the environmental evaluation are on file
