

meter band that were allocated for amateur radio service after the release of the NPRM. The Commission does not seek comment on other, unrelated issues in the docket at this time.

4. *Digital Equity and Inclusion.*

Finally, the Commission, as part of its continuing effort to advance digital equity for all, including people of color, persons with disabilities, persons who live in rural or Tribal areas, and others who are or have been historically underserved, marginalized, or adversely affected by persistent poverty or inequality, invites comment on any equity-related considerations and benefits (if any) that may be associated with the proposals and issues discussed herein. Specifically, the Commission seeks comment on how our proposals may promote or inhibit advances in diversity, equity, inclusion, and accessibility, as well the scope of the Commission's relevant legal authority.

Procedural Matters

5. *Regulatory Flexibility Certification.*

The Regulatory Flexibility Act of 1980, as amended (RFA) requires that an agency prepare a regulatory flexibility analysis for notice and comment rulemakings, unless the agency certifies that "the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities." The RFA generally defines the term "small entity" as having the same meaning as the terms "small business," "small organization," and "small governmental jurisdiction." In addition, the term "small business" has the same meaning as the term "small business concern" under the Small Business Act. A "small business concern" is one which: (1) is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the Small Business Administration (SBA).

6. In the FNPRM, the Commission proposes to amend the amateur service rules to change technical rules applicable to data emissions that an amateur radio operator may use in his or her communications with other amateur radio operators in the 135.7–137.8 kHz (2200 meter) and 472–479 kHz (630 meter) bands, and VHF and UHF bands. As discussed above, the RFA's definition of "small entities" does not include a "person" or an individual, as the terms are used in this proceeding. As a result, the proposed rules do not apply to "small entities," but instead apply exclusively to individuals who hold certain Commission authorizations. Accordingly, applying the statutorily mandated criteria the Commission

concludes and, therefore, certifies in this Initial Regulatory Flexibility Certification, that the rules adopted in the FNPRM will not have a significant economic impact on a substantial number of small entities.

7. The Commission will send copies of the FNPRM, including copies of the Initial Regulatory Flexibility Certification, to the Chief Counsel for Advocacy of the SBA.

8. *Paperwork Reduction Act.* This document does not contain proposed information collection(s) subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104–13. In addition, therefore, it does not contain any new or modified information collection burden for small business concerns with fewer than 25 employees, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4).

9. *Providing Accountability Through Transparency Act:* The Providing Accountability Through Transparency Act requires each agency, in providing notice of a rulemaking, to post online a brief plain-language summary of the proposed rule. Accordingly, the Commission will publish the required summary of this Further Notice of Proposed Rulemaking on <https://www.fcc.gov/proposed-rulemakings>.

Ordering Clauses

10. Accordingly, *it is ordered* that, pursuant to Sections 4(i), 5, 303(r), and 403 of the Communications Act of 1934, 47 U.S.C. 154(i), 155, 303(r), and 403 of the Commission's rules, that this Further Notice of Proposed Rulemaking *is hereby adopted*. Proceeding RM–11708 *is terminated*.

11. *It is further ordered* that the Office of the Secretary, Reference Information Center, *shall send* a copy of the Further Notice of Proposed Rulemaking including the Initial Regulatory Flexibility Certification, to the Chief Counsel for Advocacy of the Small Business Administration.

SUPPLEMENTARY INFORMATION:

I. Background

As part of a broader effort to improve the Department of Interior's (DOI's) procurement function and strengthen its workforce, the Department recently made changes to its procurement governance. These updates were made in accordance with 41 U.S.C. 1702, Chief Acquisition Officers and senior procurement executives, and Departmental Manual 205 DM 11, General Delegations, Procurement and Contracting. In amending its procurement governance, DOI created consistency in organizational structure and leadership roles across its bureaus and offices, and reassigned roles established by the Federal Acquisition Regulation to better streamline acquisition approval processes. This proposed rule amends the Department of the Interior Acquisition Regulation to reflect the changes in procurement governance by removing role designations no longer used and replacing with the appropriate procurement roles.

II. Description of Changes

The Federal Acquisition Regulations System consists of the Federal Acquisition Regulation (FAR), which is the codification of uniform policies and procedures for acquisition by all executive agencies, and agency acquisition regulations, such as the Department of the Interior Acquisition Regulation (DIAR), that implement or supplement the FAR. The Federal Acquisition Regulations System is codified in Title 48 of the Code of Federal Regulations (CFR).

Part 2 of the FAR defines the following key procurement roles: agency head, Chief Acquisition Officer (in accordance with 41 U.S.C. 1702), senior procurement executive (in accordance with 41 U.S.C. 1702), head of the contracting activity, and contracting officer. The FAR uses the term “chief of the contracting office” without defining it. Part 1402 of the current DIAR identifies within the Department the

agency head, senior procurement executive, and heads of the contracting activity. Part 1402 of the DIAR also defines the terms “bureau procurement chief” and “chief of the contracting office”.

This rule proposes to revise the DIAR in the following ways:

- Remove the term “bureau procurement chief” and replace with “head of contracting activity”.
- Amend the Department's definition of “head of contract activity”.
- Add and define the term “bureau procurement executive”.
- Update references to the above terms as used throughout the DIAR.

The term “bureau procurement chief” (BPC) is not used in the FAR or across executive agencies broadly. DOI defined the term in the DIAR to mean the senior General Schedule (GS) Series 1102 (contracting) official in a bureau or office. The term “head of contracting activity” (HCA) is defined in the FAR as the official who has overall responsibility for managing the contracting activity. The current DIAR further specifies that the HCA is the assistant or associate administrative head of each bureau and office who has overall responsibility for managing contracting. Within DOI, the BPC would be in a direct reporting line to the HCA. Except for the Interior Business Center, the HCA would not necessarily have a GS–1102 background and would also be responsible for other areas beyond procurement.

Both the FAR and DIAR require HCA review and approval of certain procurement actions. In practice, HCAs delegated their approvals to the BPC in most cases allowed under regulation. When HCA approval was required, it would still come through the BPC, but the additional layer of review would result in additional time to coordinate HCA briefing and approval.

When reevaluating DOI's procurement governance, the Department determined that in practice, the BPC was indeed the individual responsible for *managing* the contracting activity and the HCA was the senior executive accountable for the contracting activity but not involved in the day-to-day management of the function. The Chief Acquisition Officer, senior procurement executive, HCAs, and BPCs all concurred that accordingly, the senior GS–1102 in a bureau (or office equivalent) should be designated as the HCA rather than the DIAR specific term BPC. It was determined that this change would also streamline procurement actions requiring HCA approval by removing a layer of review that was either delegated or offered nominal additional benefit.

The senior executives who had been designated as HCAs would now be designated as ‘bureau procurement executives’ (BPEs) and would still be accountable for the bureau's contracting function.

These changes are part of a broader Departmental effort to provide greater consistency across bureau and office procurement organizations and to empower procurement leadership. The changes to the titles bureau procurement chief, head of contracting activity, and bureau procurement executive do not result in any change to reporting chains or key duties of those holding these positions. The changes also do not impose any new requirements on or change the manner in which DOI interacts with its contractors and the public.

III. Required Determinations

A. Regulatory Planning and Review (Executive Orders 12866, 13563, and 14094)

Executive Order (E.O.) 12866 provides that the Office of Information and Regulatory Affairs (OIRA) will review all significant rules. OIRA has determined that this proposed rule is not significant.

Executive Order 13563 reaffirms the principles of E.O. 12866 while calling for improvements in the nation's regulatory system to promote predictability, to reduce uncertainty, and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. The Executive Order directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public, where these approaches are relevant, feasible, and consistent with regulatory objectives. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this rule in a manner consistent with these requirements.

Executive Order 14094 reaffirms the principles of E.O. 12866 while calling for improvements in public participation, inclusiveness, and regulatory analysis. We have developed this rule in a manner consistent with E.O. 14094.

B. Regulatory Flexibility Act

The Secretary certifies that the adoption of this proposed rule will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory

Flexibility Act (5 U.S.C. 601 *et seq.*). Therefore, under 5 U.S.C. 605(b), this rulemaking is exempt from the initial and final regulatory flexibility analysis requirements of sections 603 and 604.

C. Small Business Regulatory Enforcement Fairness Act

This proposed rule is not a major rule under the Small Business Regulatory Enforcement Fairness Act (5 U.S.C. 804(2)). This rule:

- (a) Will not have an annual effect on the economy of \$100 million or more.
- (b) Will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions.
- (c) Will not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

D. Unfunded Mandates Reform Act

This proposed rule does not impose an unfunded mandate on State, local, or tribal governments or the private sector of more than \$100 million per year. The rule does not have a significant or unique effect on State, local, or tribal governments, or the private sector nor does the rule impose requirements on State, local, or tribal governments. A statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*) is not required.

E. Takings (E.O. 12630)

This proposed rule does not affect a taking of private property or otherwise have taking implications under Executive Order 12630. A takings implication assessment is not required.

F. Federalism (E.O. 13132)

Under the criteria in section 1 of E.O. 13132, this proposed rule does not have sufficient Federalism implications to warrant the preparation of a Federalism summary impact statement. It would not substantially and directly affect the relationship between the Federal and state governments. A Federalism summary impact statement is not required.

G. Civil Justice Reform (E.O. 12988)

This proposed rule complies with the requirements of E.O. 12988. Specifically, this rule:

- (a) meets the criteria of section 3(a) of this E.O. requiring that all regulations be reviewed to eliminate errors and ambiguity and be written to minimize litigation; and
- (b) meets the criteria of section 3(b)(2) of this E.O. requiring that all regulations

be written in clear language and contain clear legal standards.

H. Consultation With Indian Tribes (E.O. 13175)

The Department of the Interior strives to strengthen its government-to-government relationship with Indian tribes through a commitment to consultation with Indian tribes and recognition of their right to self-governance and tribal sovereignty. We have evaluated this rule under the Department's consultation policy and under the criteria in E.O. 13175 and have determined there will not be substantial direct effects on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. Consultation with Indian tribes is not required.

I. Paperwork Reduction Act

This proposed rule does not cause any collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501, *et seq.*) A Paperwork Reduction Act clearance is not required.

J. National Environmental Policy Act

This proposed rule does not constitute a major Federal action significantly affecting the quality of the human environment. A detailed statement under the National Environmental Policy Act of 1969 (NEPA) is not required because the rule is covered by the categorical exclusion listed in 43 CFR 46.210(f). We have also determined that the rule does not involve any of the extraordinary circumstances listed in 43 CFR 46.215 that would require further analysis under NEPA.

K. Effects on the Energy Supply (E.O. 13211)

This proposed rule is not a significant energy action under the definition in E.O. 13211. A Statement of Energy Effects is not required.

L. Clarity of This Regulation (Plain Language)

We are required by Executive Orders 12866 (section 1(b)(12)), and 12988 (section 3(b)(1)(B)), and 13563 (section 1(a)), and by the Presidential Memorandum of June 1, 1998, to write all rules in plain language. This means that each rule we publish must:

- (a) Be logically organized;
- (b) Use the active voice to address readers directly;
- (c) Use common, everyday words and clear language rather than jargon;

(d) Be divided into short sections and sentences; and

(e) Use lists and tables wherever possible.

If you feel that we have not met these requirements, send us comments by one of the methods listed in the **FOR FURTHER INFORMATION CONTACT** section. To better help us revise the rule, your comments should be as specific as possible. For example, you should tell us the number of section or paragraphs that you find unclear, which section or sentences are too long, the sections where you feel lists or tables would be useful, etc.

M. Public Availability of Comments

You may submit your comments and materials regarding this proposed rule by the method listed in the Addresses section. We will post all comments on <https://www.regulations.gov>. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information may be publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
