#### SUPPLEMENTARY INFORMATION:

*Affected entities*: Entities potentially affected by this action are those individuals that may be requested to take part in a study of human exposure to airborne particles.

*Title*: Human Exposure to Particulates in High-Risk Subpopulations, EPA ICR #: 1887.01, OMB Control Number: 2080-0058, Expires July 31, 2002.

*Abstract*: This information collection has been fully described in an earlier **Federal Register** notice of March 5, 1999 (63 FR 69073). Briefly, because of epidemiological studies relating daily mortality to fluctuations in outdoor particle concentrations, it has been deemed desirable by EPA and the National Academy of Sciences to determine the relationship between exposure of high-risk subpopulations and ambient concentrations of particles. Three cooperative agreements were awarded to University consortia to pursue studies of persons with respiratory and cardiovascular problems. Under the terms of the agreements, personal, indoor and
