NUCLEAR REGULATORY COMMISSION

[Docket No. 50-73]

General Electric Company; The **General Electric Nuclear Test Reactor Environmental Assessment and Finding of No Significant Impact**

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment for Facility Operating License No. R-33, issued to the General Electric Company (the licensee), for operation of the General Electric Nuclear Test Reactor, located in Sunol, California. Therefore, as required by 10 CFR 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

Environmental Assessment

Identification of the Proposed Action

The proposed action would correct typographical errors in section numbers referenced in the Technical Specifications.

The proposed action is in accordance with the licensee's application dated July 3, 2001.

Need for the Proposed Action

The proposed action would make the Technical Specifications accurate.

Environmental Impacts of the Proposed Action

The NRC has completed its evaluation of the proposed action and concludes that the proposed action is administrative in nature and will have no significant environmental impacts.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of effluents that may be released off site, and there

is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not have a potential to affect any historic sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

The action does not involve the use of any different resource than those previously considered in the Environmental Assessment for the General Electric Nuclear Test Reactor dated April 13, 2001.

Agencies and Persons Consulted

On August 10, 2001, the staff consulted with the California Department of Health official, Steve Hsu, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated July 3, 2001. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publically available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, http:// www.nrc.gov (the Public Electronic

Reading Room). If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, or 301-415-4737, or by e-mail at pdr@nrc.gov.

Dated at Rockville, Maryland, this 18th day of September, 2001.

For the Nuclear Regulatory Commission.

Patrick M. Madden,

Chief, Non-Power Reactors Section, Operational Experience and Non-Power Reactors Branch, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.

OFFICE OF MANAGEMENT AND **BUDGET**

Public Availability of Year 2001 Agency **Inventories Under the Federal Activities Inventory Reform Act of 1998** (Public Law 105-270) ("FAIR Act")

AGENCY: Office of Management and Budget Executive Office of the President.

ACTION: Notice of public availability of Agency Inventories of Activities that are not Inherently Governmental.

SUMMARY: Agency Inventories of Activities that are not Inherently Governmental are now available to the public from the agencies listed below, in accordance with the "Federal Activities Inventory Reform Act of 1998" (Public Law 105-270) ("FAIR Act"). This is the first release of the 2001 FAIR Act inventories. In addition, the Office of Federal Procurement Policy has prepared and has made available a summary FAIR Act User's Guide through its Internet site: http:// www.whitehouse.gov/OMB/ procurement/index.html. This User's Guide will help interested parties review 2001 FAIR Act inventories, and will also include the web-site addresses to access agency inventories.

The FAIR Act requires that OMB publish an announcement of public availability of agency Inventories of Activities that are not Inherently Governmental upon completion of OMB's review and consultation process concerning the content of the agencies' inventory submissions. OMB has now completed this process for the year 2001.
