The NCIPC Division Associate Directors for Science (ADS) or their designees will address the SPRS to assure that research priorities of the announcement are understood and to provide background regarding current research activities. The SPRS recommendations will be presented to the entire ACIPC in the form of a report by the Chairman of the SPRS. The ACIPC will vote to approve, disapprove, or modify these recommendations for funding consideration.

Factors to be considered by the ACIPC include:

- a. The results of the peer-review.
- b. The significance of the proposed activities as they relate to national program priorities, geographic balance, and the achievement of national objectives.
- c. The overall balance of the ICRC program in addressing the three phases of injury control (prevention, acute care, and rehabilitation); the control of injury among populations who are at increased risk, including racial/ethnic minority groups, the elderly and children; the major causes of intentional and unintentional injury; and the major disciplines of injury control.
- d. Budgetary considerations. The ACIPC will recommend annual funding levels as detailed in section "D. Funds" of this announcement.

These recommendations, based on the results of the peer review by the IRGRC, the relevance and balance of the proposed research relative to the NCIPC programs and priorities, and the assurance of no duplication of federally-funded research, are presented to the Director, NCIPC, for funding decisions.

3. Continued Funding

Continuation awards within the project period will be made on the basis of the availability of funds and the following criteria:

- a. The accomplishments of the current budget period show that the applicant's objectives as prescribed in the yearly work plans are being met.
- b. The objectives for the new budget period are realistic, specific, and measurable.
- c. The methods described will clearly lead to achievement of these objectives.
- d. The evaluation plan allows management to monitor whether the methods are effective by having clearly defined process, impact, and outcome objectives, and the applicant demonstrates progress in implementing the evaluation plan.

e. The budget request is clearly explained, adequately justified, reasonable, and consistent with the intended use of grant funds.
