Breast & Cervical Cancer Early Detection Activities; Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2000 funds for a cooperative agreement program for Breast & Cervical Cancer Early Detection Activities. This program focuses on serving women in the American Indian/Alaska Native populations.

In August 1994, Congress passed the National Breast and Cervical Cancer Mortality Prevention Act (Pub. L. 101-354). The NBCCEDP program was established to eliminate disparity and provide comprehensive breast and cervical cancer screening services for all women at or below 250 percent of the official poverty line. The American Indian/Alaska Natives (AI/AN) are the only ethnic group specifically mentioned as a priority population in the law. CDC is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2010," a national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the focus area of cancer. For the conference copy of "Healthy People", visit the internet address site: <<http://www.health.gov/healthypeople>>.
