*Agency:* Bureau of Economic Analysis (BEA).

*Title:* Expenditures Incurred by Recipients of Biomedical Research Awards from the National Institutes of Health (NIH).

*OMB Control Number:* 0608–0069.

*Form Number:* None.

*Type of Request:* Regular submission.

*Number of Respondents:* 150.

*Average Hours per Response:* 8 hours.

*Estimated Total Annual Burden Hours:* 1,200.

*Needs and Uses:* The survey to obtain the distribution of expenditures incurred by recipients of biomedical research awards from the National Institutes of Health Research (NIH) will provide information on how the NIH award amounts are expended across several major categories. This information, along with wage and price data from other published sources, will be used to generate the Biomedical Research and Developmental Price Index (BRDPI). The Bureau of Economic Analysis (BEA) of the Department of Commerce develops this index for the National Institutes of Health (NIH) under reimbursable contract. The BRDPI is an index of prices paid for the labor, supplies, equipment, and other inputs required to perform the biomedical research the NIH supports in its intramural laboratories and through its awards to extramural organizations. The BRDPI is a vital tool for planning the NIH research budget and analyzing future NIH programs. A survey of award recipient entities is currently the only means for updating the expenditure categories that are used to prepare the BRDPI.

A survey questionnaire with a cover letter that includes a brief description of, and rationale for, the survey will be sent to potential respondents by the first week of June of each year. A report of the respondent's expenditures of the NIH award amounts, following the proposed format for expenditure categories attached to the survey's cover letter, will be requested to be returned no later than 60 days after mailing. Survey respondents will be selected on the basis of award levels, which determine the weight of the respondent in the biomedical research and development price index. BEA proposes to survey 150 organizations that receive NIH biomedical research awards. This will include the top 100 academic organizations in awards received and the top 50 nonacademic organizations in awards received. Based on awards data for FY 2007 by type of organization (the most recent data available from NIH at this writing), academic organizations received $16.1 billion in awards, compared with $6.5 billion received by nonacademic organizations. The top 100 academic recipients received $14.0 billion, representing 86.9 percent of all awards going to academic organizations. The top 50 nonacademic organizations received $3.6 billion, representing 56.3 percent of all awards going to nonacademic institutions. The combined sample of 150 organizations will thus account for $17.7 billion in total NIH awards, representing 78.1 percent of all awards given in FY 2007.

*Affected Public:* Businesses or other for-profit institutions, and not-for-profit institutions.

*Frequency:* Annual.

*Respondent's Obligation:* Voluntary.

*Legal Authority:* 45 CFR subpart C, Post-Award Requirements, sections 74.21 and 74.53; 42 U.S.C. 282; Economy Act (31 U.S.C. 1535 and 1536); 15 U.S.C. 1525; and 15 U.S.C. 1527a.

### International Trade Administration

### Proposed Information Collection; Comment Request; Annual Report from Foreign-Trade Zones

**AGENCY:** International Trade Administration.

**ACTION:** Notice.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on continuing information collections, as required by the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted on or before August 26, 2011.

**ADDRESSES:** Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at *dHynek@doc.gov).*

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument and instructions should be directed to Christopher J. Kemp, Office of Foreign-Trade Zones, (202) 482–0862, or e-mail, *Christopher.Kemp@trade.gov.*

**SUPPLEMENTARY INFORMATION:**

### I. Abstract

The Foreign-Trade Zone Annual Report is the vehicle by which Foreign-Trade Zone grantees report annually to the Foreign-Trade Zones Board, pursuant to the requirements of the Foreign-Trade Zones Act (19 U.S.C. 81a–81u). The annual reports submitted by grantees are the only complete source of compiled information on FTZs. The data and information contained in the reports relates to international trade activity in FTZs. The reports are used by the Congress and the Department to determine the economic effect of the FTZ program. The reports are also used by the FTZ Board and other trade policy officials to determine whether zone activity is consistent with U.S. international trade policy, and whether it is in the public interest. The public uses the information regarding activities carried out in FTZs to evaluate their effect on industry sectors. The information contained in annual reports also helps zone grantees in their marketing efforts.

### II. Method of Collection

The Foreign-Trade Zone Annual Report has been collected from zone grantees in paper format. Beginning with the 2011 reporting year, the Foreign-Trade Zones Board plans to use a Web-based collection method.

### III. Data

*OMB Control Number:* 0625–0109.

*Form Number:* ITA 359P.

*Type of Review:* Regular submission.

*Affected Public:* State, local, or tribal governments or not-for-profit institutions.

*Estimated Number of Respondents:* 163.

*Estimated Time per Response:* 12 to 95 hours (depending on size and structure of foreign-trade zone).

*Estimated Total Annual Burden Hours:* 12,815.

*Estimated Total Annual Cost to Public:* $0.

### IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
