**SUPPLEMENTARY INFORMATION:****I. Abstract**

The Business and Professional Classification Report survey, (Form SQ-CLASS) collects information about new businesses to properly classify them for Census Bureau economic surveys. The survey samples businesses with newly assigned Employer Identification Numbers (EINs) from the Internal Revenue Service (IRS) quarterly, on the SQ-CLASS form. This survey is

conducted only once for each new business that is sampled. The SQ-CLASS form collects minimum data about a business on such areas as: primary business activity, EIN verification, company structure, size, and business operations. This information is used to replenish the Census Bureau survey universe with properly classified new businesses, updated administrative information, and current business data, which reduce respondent burdens to Census surveys and assure high quality economic estimates.

The Census Bureau plans only minimal changes to the form and instruction sheet. The wording of the questions and instructions for both sales and inventory will be reworded to be in line with the Census Bureau's monthly and annual surveys.

**II. Method of Collection**

The information will be collected by mail, fax, and telephone follow-up.
