Self-Regulatory Organizations; NASDAQ OMX BX, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Waive BX Port Pair Fees for Certain Newly-Added Routable Port Pairs

December 30, 2011.

("Exchange"), filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is amending its fee schedule to waive fees assessed on a single port pair used for routing orders from BX, during the months of January through March, 2012. The Exchange recently began allowing orders placed on the Exchange to route away from BX for execution.³ The Exchange is proposing to waive, for a limited time, the fee assessed for a single port pair under Rule 7015, applicable to a member firm that adds an additional port and uses that port for routing on BX during the months of January through March, 2012. The Exchange believes that waiving the port pair fee will encourage market participants to utilize the routing function of the market, and to take advantage of new routing strategies made available to market participants.⁴

A member is eligible to subscribe only one free port pair under the proposed fee waiver program and the port must be eligible for routing. The free port pair must be a newly-subscribed port pair and must be net additive to the number of port pairs a member firm is subscribed to as of December 31, 2011 (*i.e.*, it cannot replace an existing port pair). Additional port pairs subscribed to by a member firm and used for routing purposes will not be eligible for the proposed fee waiver. A member firm may add a routable port pair that meets the requirements noted above at any point during the free period, and will

not be assessed a fee for the port pair for the months remaining in the free period, so long as routable order flow is sent through the port pair at some point during the free period. If no routable order flow is sent through the designated port pair during the free period, the port pair fee will apply to all months the new port pair is subscribed to. For example, if on January 25, 2012, Firm ABCD adds a routable port on BX, the port pair would be free for the duration of the free period, so long as the member firm sends routable order flow through the port pair at some point during the free period. At the end of the free period, the member will be assessed the normal monthly fee, beginning with April 2012. If the member firm does not send routable order flow through the newly-added port pair, the member firm would be assessed the full fee for each of the months that it had subscribed to the new port pair during the free period (in the example above, all three months of the free period). A member firm is under no obligation to continue subscription to the routable port pair at the end of the free period, and may cancel its subscription at any time prior to the expiration of the free period with no charge.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁵ in general, and with Section 6(b)(4) of the Act,⁶ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls. The Exchange believes that the proposed fee waiver is reasonable as it is narrowly focused, of limited duration, and is designed to encourage BX member firms to use the full functionality of the market, thereby increasing liquidity available to investors. The Exchange believes that the proposed fee waiver is equitable since it applies to any BX member firm that seeks to use the routing function of the market and subscribes a new port pair for routing during the free period. To date, no member firms have subscribed new port pairs for the purpose of routing from BX. As noted, a member firm is not penalized for cancelling its routing port pair at the end of the free period.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act⁷ and subparagraph (f)(2) of Rule 19b-4 thereunder.⁸ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments
