

Hurricane Irma, the reserve has rebuilt the Ten Thousand Islands field station and other infrastructure to be more resilient to future extreme storm impacts. Furthermore, no reserve boundary changes are incorporated into the revised management plan. The revised management plan, once approved, would serve as the guiding document for the 110,000-acre research reserve for the next five years.

NOAA's Office for Coastal Management analyzes the environmental impacts of the proposed approval of this draft revised management plan in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, as amended, 42 U.S.C. 4332(2)(C), and the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA (40 CFR 1500–1508). The public is invited to comment on the draft revised management plan. NOAA will take these comments into consideration in deciding whether to approve the draft revised management plan in whole or in part.
