

in *NRDC v. EPA*.¹ In addition, the Philadelphia Area is currently attaining the 1997 PM_{2.5} NAAQS and EPA has approved Pennsylvania DEP's attainment demonstration for the Philadelphia Area, and the revised MVEBs simply update the budget calculations using MOVES, as explained above. EPA is soliciting public comments on the issues discussed in this document. These comments will be considered before taking final action.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

¹ The 2004 rulemaking action addressed most of the transportation conformity requirements that apply in PM_{2.5} nonattainment and maintenance areas. The 2005 conformity rule included provisions addressing treatment of PM_{2.5} precursors in MVEBs. See 40 CFR 93.102(b)(2). While none of these provisions were challenged in the *NRDC* case, EPA also notes that the court declined to address challenges to EPA's presumptions regarding PM_{2.5} precursors in the PM_{2.5} implementation rule. *NRDC v. EPA*, slip op. at 18 n. 10.

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed rule concerning Pennsylvania's January 29, 2013 request to update the applicable MVEBs of the Philadelphia Area does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

EPA Responses to State and Tribal 2010 Sulfur Dioxide Designation Recommendations: Notice of Availability and Public Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability and public comment period.

SUMMARY: Notice is hereby given that the EPA has posted its responses to certain state and tribal designation recommendations for the 2010 Sulfur Dioxide (SO₂) National Ambient Air Quality Standards (NAAQS) on its Internet Web site. The EPA invites the public to review and provide input on its responses during the comment period specified in the **DATES** section. The EPA sent its responses directly to

the states and tribes on or about February 7, 2013. These responses focus on designating as "nonattainment" certain areas of the country where air monitoring data from 2009–2011 indicate violations of the 2010 SO₂ NAAQS. The EPA intends to make final the designation determinations for the areas of the country addressed by these responses in June 2013.

DATES: Comments must be received on or before March 18, 2013. Please refer to **SUPPLEMENTARY INFORMATION** for additional information on the comment period.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2012-0233, by one of the following methods:

- <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Email:* a-and-r-docket@epa.gov. Attention Docket ID No. EPA-HQ-OAR-2012-0233.

- *Fax:* 202-566-9744. Attention Docket ID No. EPA-HQ-OAR-2012-0233.

- *Mail:* Air Docket, Attention Docket ID No. EPA-HQ-OAR-2012-0233, Environmental Protection Agency, Mail Code: 6102T, 1200 Pennsylvania Ave. NW., Washington, DC 20460.

- *Hand Delivery:* EPA Docket Center, 1301 Constitution Avenue NW., Room 3334, Washington, DC. Such deliveries are only accepted during the Docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA-HQ-OAR-2012-0233. The EPA's policy is that all comments received will be included in the public docket without change and may be made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be confidential business information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be confidential business information or otherwise protected through www.regulations.gov or email. The www.regulations.gov Web site is an "anonymous access" system, which means the EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to the EPA without going through www.regulations.gov, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the

Internet. If you submit an electronic comment, the EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If the EPA is unable to read your comment and cannot contact you for clarification due to technical difficulties, the EPA may not be able to consider your input. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about the EPA's public docket, visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>. For additional instructions on submitting comments, go to Section II of the **SUPPLEMENTARY INFORMATION** section of this document.

Docket: All documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Avenue NW., Washington, DC. SUPPLEMENTARY INFORMATION:

I. Background and Purpose

On June 2, 2010, the EPA Administrator signed a notice of final rulemaking that revised the primary SO₂ NAAQS (75 FR 35520, published on June 22, 2010) after review of the existing two primary SO₂ standards promulgated on April 30, 1971 (36 FR 8187). The EPA established the revised primary SO₂ NAAQS at 75 parts per billion (ppb) which is attained when the 3-year average of the annual 99th percentile of 1-hour daily maximum concentrations does not exceed 75 ppb.

The process for designating areas following promulgation of a new or revised NAAQS is contained in the Clean Air Act (CAA) section 107(d) (42 U.S.C. 7407). After promulgation of a new or revised NAAQS, each governor or tribal leader has an opportunity to recommend air quality designations, including the appropriate boundaries for nonattainment areas, to the EPA. The EPA considers these recommendations as part of its duty to promulgate the formal area designations and boundaries for the new or revised NAAQS. By no later than 120 days prior to promulgating designations, the EPA is required to notify states and tribes of any intended modifications to an area designation or boundary recommendation that the EPA deems necessary.

On or around February 7, 2013, the EPA notified states and tribes of its intended designation of certain specific areas as nonattainment for the 2010 SO₂ NAAQS. States and tribes now have an opportunity to demonstrate why they believe an intended modification by the

EPA regarding those specified areas may be inappropriate. The EPA encouraged states and tribes to provide comments and additional information for consideration by the EPA in finalizing designations for these specified areas. The EPA plans to make final designation decisions for these areas for the 2010 SO₂ NAAQS in June 2013.

The purpose of this notice is to solicit input from interested parties other than states and tribes on the EPA's recent responses regarding these areas to the state and tribal designation recommendations for the 2010 SO₂ NAAQS. These responses, and their supporting technical analyses, can be found on the EPA's Internet Web site at <http://www.epa.gov/so2designations> and also in the public docket for SO₂ designations at Docket ID No. EPA-HQ-OAR-2012-0233. CAA section 107(d) provides a process for air quality designations that involves recommendations by states and tribes to the EPA and responses from the EPA to those parties, prior to the EPA promulgating final area designations and boundaries. The EPA is not required under CAA section 107(d) to seek public comment during the designation process, but is electing to do so for these areas under the 2010 SO₂ NAAQS in order to gather additional information for the EPA to consider before making final designations for the specific areas addressed in the EPA's recent responses to states and tribes. The EPA invites public input on its responses to states and tribes regarding these areas during the 30-day comment period provided in this notice. In order to receive full consideration, input from the public must be submitted by March 18, 2013. At this time, the EPA is not asking for public comments on other areas for which states and tribes have submitted designation recommendations, beyond those to which the EPA has provided the responses that are the subject of this proposed action. This notice and opportunity for public comment does not affect any rights or obligations of any state, tribe or the EPA which might otherwise exist pursuant to CAA section 107(d).

Please refer to the **ADDRESSES** section above in this document for specific instructions on submitting comments and locating relevant public documents.

In establishing nonattainment area boundaries, the EPA is required to identify the area that does not meet the 2010 SO₂ NAAQS and any nearby area that is contributing to the area that does not meet that standard. We are particularly interested in receiving comments, supported by relevant

information, if you believe that a specific geographic area that the EPA is proposing to identify as a nonattainment area should not be categorized by the CAA section 107(d) criteria as nonattainment, or if you believe that a specific nearby area not proposed by the EPA to be identified as contributing to a nonattainment area should in fact be categorized as contributing to nonattainment using the CAA section 107(d) criteria. Please be as specific as possible in supporting your views.

- Describe any assumptions and provide any technical information and/or data that you used.
- Provide specific examples to illustrate your concerns, and suggest alternatives.
- Explain your views as clearly as possible.
- Make sure to provide your input by the comment period deadline identified.

At this point, the EPA is prepared to proceed with identifying as “nonattainment” most areas in locations where available monitoring data from 2009–2011 indicate violations of the 1-hour SO₂ standard. The EPA intends to complete designations for these nonattainment areas in June 2013. The EPA is not yet prepared to respond to state and tribal area designation recommendations, or seek public input thereon, for other areas, and intends to address those areas in a subsequent round or multiple rounds of responses and designations. Additional information on the EPA’s intended approach for addressing designations for all areas can be found on the EPA’s SO₂ implementation Web site at <http://www.epa.gov/airquality/sulfurdioxide/implementation.html>. Please be advised that, in this action, the EPA is not proposing as a regulatory action and is not soliciting public comments on the intended approach for these other areas, regarding either designations or implementation. The EPA expects its final designations regarding the specific areas addressed in this action to be limited to those areas and any areas that are found to be contributing to ambient air quality in those areas.

To date, the EPA has identified 30 areas as not meeting the 2010 SO₂ NAAQS based on the most recent certified air quality monitoring data from 2009–2011, and is intending to designate most of these areas as nonattainment.

II. Instructions for Submitting Public Comments and Internet Web Site for Rulemaking Information

A. What should I consider as I prepare my comments for the EPA?

1. *Submitting CBI.* Do not submit this information to the EPA through www.regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI in a disk or CD ROM that you mail to the EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. Send or deliver information identified as CBI only to the following address: Roberto Morales, U.S. EPA, Office of Air Quality Planning and Standards, Mail Code C404–02, Research Triangle Park, NC 27711, telephone (919) 541–0880, email at morales.roberto@epa.gov, Attention Docket ID No. EPA–HQ–OAR–2012–0233.

2. *Tips for Preparing Your Comments.* When submitting comments, remember to:

- Identify the rulemaking by docket number and other identifying information (subject heading, **Federal Register** date and page number).
- Follow directions.
- Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

B. Where can I find additional information for this rulemaking?

The EPA has also established a Web site for this rulemaking at <http://www.epa.gov/so2designations>. The Web site includes the EPA’s state and tribal designation recommendations, information supporting the EPA’s preliminary designation decisions, as well as the rulemaking actions and other related information that the public may find useful.

Dated: February 7, 2013.
