### TROA Background

Section 205(a) of the Settlement Act directs the Secretary of the Interior (Secretary), in conjunction with others, to negotiate an operating agreement governing operation of Federal Truckee River reservoirs and other specified

matters. Interior, U.S. Department of Justice, States of California and Nevada, Pyramid Lake Paiute Tribe, Sierra Pacific Power Company, Truckee Meadows Water Authority, and other entities in California and Nevada completed a negotiated agreement (i.e., Negotiated TROA) in February 2007. The Negotiated TROA is available as an appendix to the Final EIS/EIR or viewed at <http://www.usbr.gov/mp/troa/>.

TROA would, in part, (1) enhance conditions for the threatened Lahontan cutthroat trout and endangered cui-ui in the Truckee River basin; (2) increase municipal and industrial (M&I) drought protection for Truckee Meadows (Reno-Sparks metropolitan area); (3) improve Truckee River water quality downstream from Sparks, Nevada; and (4) enhance instream flows and recreational opportunities in the Truckee River basin. At the time TROA takes effect, the Settlement Act provides that a permanent allocation between California and Nevada of water in the Lake Tahoe, Truckee River, and Carson River basins will also take effect. Allocation of those waters has been a long-standing issue between the two States; implementation of TROA resolves that issue. In addition, Section 205 of the Settlement Act requires that TROA, among other things, implement the provisions of the Preliminary Settlement Agreement as modified by the Ratification Agreement (PSA) and ensure that water is stored in and released from Federal Truckee River reservoirs to satisfy the exercise of water rights in conformance with the *Orr Ditch* decree and *Truckee River General Electric* decree. PSA is a 1989 agreement between Sierra Pacific Power Company and the Pyramid Lake Paiute Tribe to change the operation of Federal reservoirs and Sierra Pacific's exercise of its Truckee River water rights to (1) improve spawning conditions for threatened and endangered fish species (cui-ui and Lahontan cutthroat trout) and (2) provide additional M&I water for Truckee Meadows during drought situations. Sierra Pacific's obligations and associated water rights have since been assigned to the Truckee Meadows Water Authority (TMWA).

Before TROA can be approved by the Secretary and the State of California, potential environmental effects of the agreement must be analyzed pursuant to NEPA and CEQA. Accordingly, Interior and DWR have jointly prepared a Final EIS/EIR for that purpose. A Draft EIS/EIR based on an earlier draft agreement was initially prepared and released for public review in February 1998. Subsequently, ongoing negotiations substantially modified the proposed
