

study was originally scoped as an EIS. A notice of intent to prepare an EIS was published in the **Federal Register** on November 4, 2022 (87 FR 66681). The scoping comment period ended on December 5, 2022. During scoping, a project website was prepared, press releases and notifications were sent to affected agencies and interested parties, and one virtual public meeting and three in-person public meetings were conducted in Henning, Tennessee, Millington, Tennessee, and Marion, Arkansas, respectively. No adverse comments were received, and all comments were generally supportive of the proposed activities. Additionally, the plan formulation process resulted in a reduced number of measures in the current array of alternatives being considered since the initiation of the study.

The USACE will notify the public in advance of the availability of the draft and final IFR-EAs through press releases, special public notices, and USACE-Memphis District social media platforms. All public review and project related information will continue to be made available at: <https://www.mvm.usace.army.mil/Missions/Environmental-Stewardship/Hatchie-Loosahatchie-Mississippi-River-Ecosystem-Restoration-Study/>.
