

proposed rule change would not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Instead, as discussed above, the Exchange believes that the proposed changes would encourage competition because it would establish listing and annual fees for Fund Shares, thereby encouraging issuers to develop and list additional products on the Exchange that the Exchange believes will enhance competition both among issuers and listing venues, to the benefit of investors. The proposal also ensures that the fees charged by the Exchange accurately reflect the services provided and benefits realized by listed issuers. The market for listing services is extremely competitive. Issuers have the option to list their securities on these alternative venues based on the fees charged and the value provided by each listing exchange. Because issuers have a choice to list their securities on a different national securities exchange, the Exchange does not believe that the proposed fee changes impose a burden on competition.

Intramarket Competition. The proposed changes are designed to attract additional listings to the Exchange by establishing listing and annual fees for an ETPs listed under a new rule. The Exchange believes that the proposed changes would continue to incentivize issuers to develop and list new products, transfer existing products to the Exchange, and maintain listings on the Exchange. The proposed fees and discounts would be available to all issuers, and, as such, the proposed change would not impose a disparate burden on competition among market participants on the Exchange.

Intermarket Competition. The Exchange operates in a highly competitive listings market in which issuers can readily choose alternative listing venues. In such an environment, the Exchange must adjust its fees and discounts to remain competitive with other exchanges competing for the same listings. Because competitors are free to modify their own fees and discounts in response, and because issuers may readily adjust their listing decisions and practices, the Exchange does not believe its proposed fee change can impose any burden on intermarket competition. As such, the proposal is a competitive proposal designed to enhance pricing competition among listing venues and implement pricing for Fund Shares to reflect the revenue and expenses associated with listing on the Exchange.
