

CBPL No.	ASTM	Title
27-04	D95	Standard Test Method for Water in Petroleum Products and Bituminous Materials by Distillation.
27-05	D4928	Standard Test Method for Water in Crude Oils by Coulometric Karl Fischer Titration.
27-06	D473	Standard Test Method for Sediment in Crude Oils and Fuel Oils by the Extraction Method.
27-07	D4807	Standard Test Method for Sediment in Crude Oil by Membrane Filtration.
27-08	D86	Standard Test Method for Distillation of Petroleum Products.
27-09	D4953	Standard Test Method for Vapor Pressure of Gasoline and Gasoline-Oxygenate Blends (Dry Method).
27-11	D445	Standard Test Method for Kinematic Viscosity of Transparent and Opaque Liquids.
27-13	D4294	Standard Test Method for Sulfur in Petroleum and Petroleum Products by Energy-Dispersive X-ray Fluorescence Spectrometry.
27-14	D2622	Standard Test Method for Sulfur in Petroleum Products (X-Ray Spectrographic Methods).
27-33	D5	Standard Test Method for Penetration of Bituminous Materials.
27-46	D5002	Standard Test Method for Density and Relative Density of Crude Oils by Digital Density Analyzer.
27-48	D4052	Standard Test Method for Density and Relative Density of Liquids by Digital Density Meter.
27-50	D93	Standard Test Methods for Flash-Point by Pensky-Martens Closed Cup Tester.
27-53	D2709	Standard Test Method for Water and Sediment in Middle Distillate Fuels by Centrifuge.
27-58	D5191	Standard Test Method For Vapor Pressure of Petroleum Products (Mini Method).

Anyone wishing to employ this entity to conduct laboratory analyses and gauger services should request and receive written assurances from the entity that it is accredited or approved by the U.S. Customs and Border Protection to conduct the specific test or gauger service requested. Alternatively, inquiries regarding the specific test or gauger service this entity is accredited or approved to perform may be directed to the U.S. Customs and Border Protection by calling (202) 344-1060. The inquiry may also be sent to CBPGaugersLabs@cbp.dhs.gov. Please reference the Web site listed below for a complete listing of CBP approved gaugers and accredited laboratories. <http://www.cbp.gov/about/labs-scientific/commercial-gaugers-and-laboratories>.

Change in Regional Partners for Upper Copper River Region for the Alaska Migratory Bird Co-Management Council

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The U.S. Fish and Wildlife Service announces a change in a regional partner, representing the Upper Copper River region, on the Alaska Migratory Bird Co-management Council

(Co-management Council). For the Upper Copper River region, the Copper River Native Association has elected to step down, and the Co-management Council is replacing that partner with the Ahtna Intertribal Resource Commission. This action will ensure continuity of the Co-management Council's operations.

DATES: The change in representation on the Co-management Council took effect October 1, 2017.

FOR FURTHER INFORMATION CONTACT:

Donna Dewhurst, (907) 786-3499, U.S. Fish and Wildlife Service, 1011 E. Tudor Road, Mail Stop 201, Anchorage, AK 99503; donna_dewhurst@fws.gov.

SUPPLEMENTARY INFORMATION: The U.S. Fish and Wildlife Service (Service) regulates the subsistence take of migratory birds in Alaska through regulations in title 50 of the Code of Federal Regulations in part 92. The Service published a notice of decision in the **Federal Register** on March 28, 2000 (65 FR 16405), that established regional management bodies in Alaska to develop recommendations related to subsistence harvest. The notice of decision also established a single statewide management body consisting of representatives from each of the regions and one representative each from the Service and the Alaska Department of Fish and Game. In a final rule of July 21, 2003 (68 FR 43010), we announced that, of the 12 geographic regions that represent common subsistence resource use patterns in Alaska, 11 regional bodies elected to participate in the statewide management body. Membership on the 11 regional bodies comprises subsistence users from each of the active regions. The Service contracted with 11 partner organizations to organize and support the regional bodies.

Since 2000, the Co-management Council partner organization

representing the Upper Copper River region has been the Copper River Native Association (CRNA). However, CRNA notified the Service, by letter dated August 11, 2017, of its request to cease the present regional partnership with the Co-management Council, and recommended that the Ahtna Intertribal Resource Commission could potentially be a good replacement. A phone poll was conducted of the Co-management Council on August 16, 2017, and they unanimously selected the Ahtna Intertribal Resource Commission as their replacement partner.

The new Co-management Council partner organization will ensure continuity of communication with the subsistence users of their regions to establish and maintain local representation on their regional management bodies. Partners are also responsible for coordinating meetings within their regions, soliciting proposals, and keeping the villages informed.

Dated: November 1, 2017.

Gregory E. Siekaniec

Regional Director, Anchorage, Alaska.
