The Commission strongly encourages electronic filing. Please file comments, motions to intervene, and protests using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at

[FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), (866) 208–3676 (toll free), or (202) 502–8659 (TTY). In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include the docket number P–2687–017. Comments emailed to Commission staff are not considered part of the Commission record.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Request:* The licensee requests approval of a temporary variance of its requirements to provide sediment flushing flows pursuant to Condition 13 of the project water quality certification. The intent of the requirement was to control nuisance aquatic vegetation and impede mosquito reproduction in Fall River Pond. The flows are required to be released during one weekend each, in May or June, July, and August. However, the U.S. Fish and Wildlife Service determined in 2009 that the flows adversely affect the federally-endangered Shasta crayfish (*Pacifastacus fortis*) and its habitat. The licensee's Flushing Flow Effectiveness Monitoring Plan results have also shown that minimum instream flows have been more effective at suppressing and maintaining consistently low surface aquatic vegetation than flushing flows. As such, the licensee is requesting that no flushing flows be required in 2022.

l. *Locations of the Application:* This filing may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. ## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project No. 2816-050; Project No. 12766-007]

#### North Hartland, LLC; Green Mountain Power Corporation; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a new license for the North Hartland Hydroelectric Project No. 2816 (North Hartland Project), and the application for a new license for the Clay Hill Road Line 66 Transmission Project No. 12766 (Clay Hill Project), and has prepared an Environmental Assessment (EA) for the projects. The North Hartland Project is on the Ottauquechee River in Windsor County, Vermont, and occupies 20.8 acres of federal land administered by the U.S. Army Corps of Engineers. The Clay Hill Project serves as part of the primary transmission line for the North Hartland Project, and is located along Clay Hill Road in Windsor County, Vermont.

The EA contains staff's analysis of the potential environmental effects of the projects and concludes that licensing the projects, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link.
