Food and Nutrition Service

Title: 7 CFR part 220, School Breakfast Program.

OMB Control Number: 0584–0012.

Summary of Collection: Section 4 of the Child Nutrition Act (CNA) of 1966 (42 U.S.C. 1773) authorizes the School Breakfast Program as a nutrition assistance program and authorizes payments to States to assist them to initiate, maintain, or expand nonprofit breakfast programs in schools. The provision requires that “Breakfasts served by schools participating in the School Breakfast Program under this section shall consist of a combination of foods and shall meet minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research.” The School Breakfast Program is administered and operated in accordance with the National School Lunch Act (NSLA). The Program is administered at the State and local levels, including school district and school site levels, and the operations include the submission and approval of applications to participate in the program, execution of agreements, record maintenance, submission of claims, payment of claims, monitoring procedures, and providing technical assistance.

Need and Use of the Information: This collection is mandatory to administer and operate this program in accordance with the authorizing statutes. States, school food authorities (SFAs), and schools are required to keep accounts and records as may be necessary to enable FNS to determine whether the program is in compliance. SFAs collect breakfast counts from the schools so that they can submit claims and related information to the State agencies. The State agencies then report this information to FNS. The State agencies, the SFAs, and the schools also maintain records related to the School Breakfast Program. FNS uses the information to monitor State agency and SFA compliance, determine the amount of funds to be reimbursed, evaluate and adjust program operations, and to monitor program funding and program trends.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 105,700.

Frequency of Responses: Recordkeeping; Reporting: On occasion; Monthly, Annually, Other (Daily Meal Records)

Total Burden Hours: 3,736,676.

Agricultural Marketing Service

Title: National Bioengineered Food Disclosure Standard.

OMB Control Number: 0581–0315.

Summary of Collection: The U.S. Department of Agriculture (USDA) administers the Agricultural Marketing Act of 1946 (Title II of the Act of August 14, 1946). Public Law 114–216 amended the Agricultural Marketing Act of 1946, directing the Secretary of Agriculture to establish the National Bioengineered Food Disclosure Standard (7 CFR 66) for disclosing certain foods that are bioengineered or contain bioengineered ingredients. The final rule (National Bioengineered Food Disclosure Standard [7 CFR 66]) fulfills USDA’s need to establish requirements and procedures to carry out the new standard. Public Law 114–216 also addressed Federal preemption of State and local genetic engineering labeling requirements and specifies that certification of food under USDA’s National Organic Program (7 CFR 205) were considered sufficient to make claims about the absence of bioengineering in the food. AMS gathered industry input and conducted rulemaking on the National Bioengineered Food Disclosure Standards.

Need and Use of the Information: The audit process involves access to records at the entity’s place of business. AMS would examine the records during normal business hours to verify compliance with the standard’s disclosure requirements. Under § 66.304(c), if an entity fails to provide AMS access to records, AMS would determine that the entity did not comply and would make the determination public. Companies would know the requirements through a list that AMS will maintain containing bioengineered crops and foods that may be produced in other countries. As set forth in § 66.300, recordkeeping applies to records for food on the list of bioengineered foods. As set forth in § 66.302(a)(3), records would have to be maintained for at least two years after the food’s distribution for retail sale.

Description of Respondents: Business or other for-profit; Not for-profit institutions.

Number of Respondents: 155,098.

Frequency of Responses: Recordkeeping; Annually.

Total Burden Hours: 353,952.
