**DATES:** Comments are to be submitted on or before April 1, 2013.

**ADDRESSES:** You may submit comments, identified by Docket No. FEMA–B–1089, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646–4064 or (email) *luis.rodriquez3@dhs.gov.*

**FOR FURTHER INFORMATION CONTACT:** Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646–4064 or (email) *luis.rodriquez3@dhs.gov.*

**SUPPLEMENTARY INFORMATION:** The Federal Emergency Management Agency (FEMA) publishes proposed determinations of Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the

Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are minimum requirements. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

#### Corrections

(backwater effects from Green River), Big Reedy Creek (backwater effects from Green River), Deerlick Creek (backwater effects from Green River), Deerlick Creek Tributary 6 (backwater effects from Green River), East Prong Indian Camp Creek (backwater effects from Green River), Gary Creek (backwater effects from Green River), Grassy Lick Creek (backwater effects from Green River), Green River, Hickory Camp Creek (backwater effects from Green River), Hickory Camp Creek Tributary 1 (backwater effects from Green River), Indian Camp Creek (backwater effects from Green River), Lindsey Creek (backwater effects from Green River), Little Bull Creek (backwater effects from Green River), Little Reedy Creek (backwater effects from Green River), Meffords Branch (backwater effects from Green River), Meffords Branch Tributary 4 (backwater effects from Green River), Mud River (backwater effects from Green River), Mud River Tributary 17 (backwater effects from Green River), Mud River Tributary 17.2 (backwater effects from Green River), Muddy Creek (backwater effects from Green River), Muddy Creek Tributary 18 (backwater effects from Green River), Muddy Creek Tributary 27 (backwater effects from Green River), Muddy Creek Tributary 39.1 (backwater effects from Green

River), Panther Creek (backwater effects from Green River), Pipe Spring Hollow (backwater effects from Green River), Pitman Creek (backwater effects from Green River), Pitman Creek Tributary 3 (backwater effects from Green River), Renfrow Creek (backwater effects from Green River), Renfrow Creek Tributary 6 (backwater effects from Green River), Renfrow Creek Tributary 7 (backwater effects from Green River), Renfrow Creek Tributary 8 (backwater effects from Green River), Renfrow Creek Tributary 9 (backwater effects from Green River), Rosy Creek (backwater effects from Green River), Sandy Creek (backwater effects from Green River), Sandy Creek Tributary 5 (backwater effects from Green River), Tallow Branch (backwater effects from Green River), Welch Creek (backwater effects from Green River), West Prong Indian Camp Creek (backwater effects from Green River), and Wolfpen Hollow (backwater effects from Green River). That table contained inaccurate information as to the communities affected for the flooding source Green River. In this notice, FEMA is publishing a table containing the accurate information to address these prior errors. The information provided below should be used in lieu of that previously published.
